“Preneed arrangement,” "preneed agreement" or "preneed" is written instruction regarding goods or services or both goods and services for final disposition of human remains when the goods or services are not provided until the time of death, and may be either unfunded or paid for in advance of need.

Funeral Establishment's Responsibility – Business and Professions Code Section 7745 requires a funeral establishment to present to the survivor of the decedent or the responsible party a copy of any preneed agreement in its possession which has been signed and paid for in full, or in part by, or on behalf of the deceased. Business and Professions Code Section 7685.6 requires a copy of any preneed arrangements to be disclosed prior to drafting any contract for funeral goods or services. The funeral establishment may present the copy in person, by certified mail, or by facsimile transmission, as agreed upon by the person with the right to control disposition. A funeral establishment that knowingly fails to present a preneed agreement as required is liable for a civil fine equal to three times the cost of the preneed agreement, or one thousand dollars (\$1,000), whichever is greater.

You may contact the Cemetery and Funeral Bureau for more information on funeral, cemetery or cremation matters or to file a complaint against a licensee:

IRVINGTON MEMORIAL CREMATORY

41001 Chapel Way Fremont, CA 94538
(510) 656-5800 Lic. CR130

AUTHORITY TO CREMATE

Subject to the Rules & Regulations of **Irvington Memorial Crematory**(hereinafter referred to as "Crematory"),
you are hereby authorized to cremate the remains of:

Disposition of Cremated Remains: _____

Funeral Director & Address:

BAY AREA MORTUARY SERVICES

408-998-2202

1701 Little Orchard Street, San Jose, CA 95125

INFECTIOUS: Yes _____ No _____

PACEMAKER: Yes _____ No _____ Removed by: _____

Delivery to: (Please Initial)

_____ I. I authorize you to deliver the said remains to:

for the purpose of interment or lawful scattering at sea.

THE CREMATION PROCESS

"The human body burns with the casket, container or other material in the cremation chamber. Some bone fragments are not combustible at the incineration temperature and, as a result, remain in the cremation chamber. During the cremation, the contents of the chamber may be moved to facilitate incineration. The chamber is composed of ceramic or other material, which disintegrates slightly during each cremation and the product of that disintegration is commingled with the cremated remains. Nearly all of the contents of the cremation chamber, consisting of the cremated remains, disintegrated chamber material and small amounts of residue from previous cremations, are removed together and crushed, pulverized and ground to facilitate inurnment or scattering. Some residue remains in the cracks and uneven places of the chamber. Periodically, the accumulation of this residue is removed and interred in a dedicated cemetery property or scattered at sea." (Sect. 7054.7 (b) California Health & Safety Code)

When cremating, the Crematory will exercise reasonable efforts in keeping cremated remains separate. However, it is impossible to guarantee or warrant that bone particles or the residue of one cremation could not possibly be mixed with those of another cremation. Also, the temperature of the chamber is raised to meet the minimum Standards for Cremation as set forth by the Bay Area Air Quality Management District Regulations. I do not hold the Crematory responsible beyond reasonable effort.

I authorize the Crematory to separate all non-combustible inorganic material after the cremation process and authorize the Crematory to dispose of those metals at its discretion.

All non-combustible inorganic materials such as casket hardware, surgical pins, dental, orthopedic implants, etc. are mechanically separated. The Crematory will recycle these metals with an EPA compliant metal refinery. Any proceeds may be donated to a recognized charitable organization, be retained by the crematory, or redeemed for goods or services in the provider sponsored program at the discretion of the Crematory.

AUTHORITY TO CREMATE (CONTINUED)

**I understand that if it is the intention to save any personal items,
it is my responsibility to remove them before cremation.**

In the event the cremated remains do not all fit in the container I have chosen, I direct The Crematory to: ***(Initial One Only)***

_____ A. Return the balance of the remains to me.

_____ B. Place the balance of the remains in a common interment site within Irvington Memorial Cemetery. I Specifically authorize the placement and the commingling of the cremated remains of more than one person in the same container or the same interment plot. (Sect. 7054.7 (a) (2)(3) California Health & Safety Code)

I declare under penalty of perjury the foregoing is true and correct and that I make this statement to allow the Crematory to cremate the remains of the decedent. This is your authority to make the disposition of the remains. In the event such remains have not been permanently interred or picked up by myself or my agent designated for said purpose within three (3) months of this date the Crematory is authorized to inter or cause them to be interred in such a manner as you may deem advisable, including commingling thereof by interment in a location or by manner with remains of another person or persons. I hereby warrant the said remains contain no pacemaker or other explodable implant and that it is safe to cremate. I hereby agree to protect and indemnify the Crematory or its assigns against any claims or damages which may result on account of this authorization or my failure to properly identify or pick up said remains, including legal fees, cost, and expenses of litigation.

CUSTODY AND DUTY OF INTERMENT- Health & Safety Code, Section 7100

I certify that I am the _____ (relationship) to the decedent. Pursuant to California Health and Safety Code section 7100, I am authorized to control disposition of the remains.

Executed at _____, California, this _____ day of _____ 20_____
