

Junior Financial Planning

Permanent

FULFILLMENT
TALENT SOLUTIONS

ABOUT

Our Client, a Canadian-headquartered consultancy and Vena Solutions partner, is looking for bright, driven graduates who want to accelerate their careers in financial planning and analysis. You will be trained to deliver financial modelling and planning services using industry-leading tools like Vena, whilst learning directly from seasoned professionals. This role is designed for individuals who are analytical, tech-savvy, people-oriented, and ready to embrace a steep learning curve:

KEY RESPONSIBILITIES

- Support delivery of financial modelling, forecasting, and budgeting solutions.
- Work alongside experienced consultants and clients across North America.
- Engage in Excel-based modelling and data analysis to inform decision-making.
- Participate in virtual and in-person training, client meetings, and team development.
- Contribute to a growing, entrepreneurial team environment.

EXPERIENCE REQUIRED

- Bachelor's degree in Finance, Accounting, Economics, Information Systems, or similar.
- Excellent Excel skills; understanding of formulas, pivots, and data integrity principles.
- Strong academic record and demonstrated analytical thinking.
- Eagerness to learn, collaborate, and contribute from day one.
- Willingness to work flexible hours to engage with global teams (some late evenings).
- Long-term vision for growth—locally and abroad (e.g. UK, Europe).
- A self-starter who thrives in dynamic, fast-paced environments

SUMMARY

- **Location:** Johannesburg (Rosebank)
- **Employment Type:** Permanent (North American contract)
- **Compensation:** Paid in USD, competitive graduate-level salary
- **Start Date:** Flexible – 2026
- **Work Arrangement:** Hybrid (remote-first with required in-office engagement, at least 4 months)
- **Career Path:** Structured growth into intermediate and senior roles within 1–3 years
