InBred Line (IBL) & Landrace Clones

Kandahar Afghan

Indica

8-9 weeks

IBL

- Heirloom indica strain from a small village in Kandahar brought over in the 70s and kept preserved in California, given to Bodhi to sell through the Nierika Seed Trust. Great breeding tool and easy to grow inside or outside. Cool fade color when grown under LED. Popcorn nugs of pure indica smoke that's relaxing to the body but doesn't cause couch lock.
- Great for day or night time. Nice relaxing body high. Reported to help with insomnia and anxiety.

Vintage Pakistani 1 #1

Sativa

9-10 weeks

Landrace

- Pakistani landrace rare sativa type with a soaring clear headed high from the Nierika Seed Trust. Great breeding tool. Slightly bigger producer than #2.
- Quick finishing sativa can help with PTSD and ADHD. Very sharp mental focus strain.

Vintage Pakistani 1 #2

Sativa

9-10 weeks

Landrace

- Pakistani landrace rare sativa type with soaring clear headed high from the Nierika Seed Trust. Great breeding tool. **Red hair pheno.**
- Quick finishing sativa can help with PTSD and ADHD. Very sharp mental focus strain.

Monkey Balls (Deep Chunk) #15

Indica

9-10 weeks

IBL

- A Tom Hill original creation of Deep Chunk bred in the US for over 20 years and f2ed by Hazeman and named Monkey Balls. Not much of a taste on this one. It's quite different. But very strong body and sedative effects. Great for nighttime. Old Afghan line that's a very popular medical strain. Reported to be very dominant in crosses. #15 gets a beautiful purple coloring to it.

Big Sur Holy Weed #2

Sativa

9-10 weeks

IBL

- *Zacatecas Purple x Afghani*. Old school Mexican/Afghani hybrid bred to an heirloom sativa in the 70's (central coastal California). A monk named Perry living in the Big Sur area back in the 70s originally developed this strain. Psychedelic and trippy Big Sur Holy Weed will take you back in time. Afghani/Mexican hybrid masterfully bred towards the sativa high and the indica frame. The true magic of this strain is the amazing sublime sativa high, a beautiful blast from the past.

Nigerian Sunshine #2

Sativa

8-9 weeks

IBL

- *Nigerian Landrace x Blue Moon Rocks*. A worked landrace x polyhybrid African line by team Swami, incorporating the 1976 Nigerian landrace from Coot. This line holds a truly unique expression in cannabis in flavor, scent and overall effect. The mother seed was found in a tribal region by a couple "searching for exotic textiles". In a certain dispensary in Washington State that is frequented by veterans from the gulf and Afghanistan wars, it was found that this was the only type around today that truly comforts and relieves the effects of PTSD. Flowering periods from 55 to 65 with average to high yields. Veterans like this one for *PTSD and anxiety relief*.

****All clones are \$30 (tax already included). Buy 5, get the 6th for a penny. *Every purchase comes with a pack of seeds of your choice for a penny (while supplies last).****

Sannie's Jack #7 *Mostly Sativa* *11-13 weeks* *IBL*
- Sensi Seeds Jack Herer f8. This is a worked line from Sannie's Seeds in the Netherlands. Sannie got the original Jack Herer, that was all the rage in the Netherlands in the late 90's, around 1998 and has worked the strain all the way to f8. It's a super uniform, very branchy, but very structurally sound with huge baseball bat sized colas at the top of each branch. It's a pure big yielding clear headed sativa head rush with strong smells of lemon with a slight mintyness. Great daytime smoke. Great plant for breeding, as you can test out with our Jack Light5 and OG Jack.

1979 Christmas Tree Bud #10 *Indica* *8 weeks* *IBL*
- Old school *Pakistani landrace* brought over in '79 and kept in line for years and recently released by Useful Seeds. Known in some areas for coming out each year around Christmas and it's pine tree like smell. Not a big producer but should be great for breeding with to keep plants more squat and shorten flowering time.

True f1 Hybrid Clones (IBL or Landrace crossed to a different IBL or Landrace)

Too Buku #3 *50/50 Hybrid* *8 weeks* *f1 Hybrid*
- (*Vietnam Black x Thai*) x *Herijuana*. 3-way f1 Hybrid from Mantis Medgrower, created in Sonoma, brings two powerhouse strains together for that classic Sativa/Indica f1 hybrid. Vietnam Black/Thai dominate. Lankier pheno with **pure sativa motivating clear head high**. Colors get brighter!

Too Buku #26 *50/50 Hybrid* *8 weeks* *f1 Hybrid*
- (*Vietnam Black x Thai*) x *Herijuana*. 3-way f1 Hybrid from Mantis Medgrower, created in Sonoma, brings two powerhouse strains together for that classic Sativa/Indica f1 hybrid. Herijuana dom. **Very strong cannabis** that you will feel instantly. Can cause daydreaming, disassociation, etc.

Dread Bread #2 *50/50 Hybrid* *10-12 weeks* *f1 Hybrid*
- *Mango Biche x Old Mother Ghani*. Supernatural Selections creation of a Central American favorite, considered the Blue Dream of the region because it grows great everywhere, crossed to the Afghani male. Huge plants with great yields. Biggest pheno, longer flowering sativa bud growth influence.

Dread Bread #4 *50/50 Hybrid* *8-9 weeks* *f1 Hybrid*
- (*Mango Biche x Old Mother Ghani*) Supernatural Selections creation of a Central American favorite, considered the Blue Dream of the region because it grows great everywhere, crossed to the Afghani male. Huge plants with great yields. Mango dominant pheno. Fastest to flower.

Dread Bread #10 *50/50 Hybrid* *8-9 weeks* *f1 Hybrid*
- (*Mango Biche x Old Mother Ghani*) Supernatural Selections creation of a Central American favorite, considered the Blue Dream of the region because it grows great everywhere, crossed to the Afghani male. Huge plants with great yields. Frostiest Afghan dominant pheno.

Zamaldelica #8 *Sativa* *11-14 weeks* *f1 hybrid*
- *Zamal x (Malawi/Thai)*. 3 way sativa cross featuring a Zamal mom from Madagascar known for it's psychedelic like high. Pure lanky thin leaf sativa beauty of a plant! Tallest Thai dom sativa pheno.

****All clones are \$30 (tax already included). Buy 5, get the 6th for a penny. *Every purchase comes with a pack of seeds of your choice for a penny (while supplies last).****

Blue Orca x 1985 Road Kill Skunk/Uruapan #8 *Mostly Sativa* *10-12 weeks* *f1 hybrid*
- Reach across time and space and grow out this unique f1 cross by Swami Seeds. Blue Orca is a legendary cut from a 1971 old Afghan line and is the sister to The One. The 1985 RKS/Uruapan is from a legit RKS line grown in Mexico. Sulphur amendments might help bring out more of the RKS smells.

Polyhybrid & Backcross Clones

84% Pure Gooley *Mostly Indica* *8-9 weeks* *Backcross*
- *Afghani x Maui Haze*. BX2 of the famous 35 year old "Mom" Gooley from Gooleybreeder, "this stage of Pure Gooley seed making yielded some strong plants that still held onto some of the indy traits from s1. Great mom traits expressed but tends to be sedative in the high than the more sativa dominant Pure Gooley (Afghani x Maui Haze). Still follows moms timing ~8-9weeks."

Pineapple Lights #7 *Mostly Sativa* *9 weeks* *f1 Polyhybrid*
- (*Pineapple Thai x Tahoe OG Kush*) x *Northern Light5*. The pineapple smell and taste comes through dominate in the crosses to Tahoe OG and Northern Lights males, increasing yield and structure along the way. Pineapple Thai is a high CBD strain popular in Northern California and has a nice "day at the beach" type of high, bringing serenity with every exhale. Awesome plant. Pineapple Thai is a 3:2 THC:CBD strain with reports of 15% THC and 10% CBD. Very functional. Created by Mantis Medgrower.

Nikah #3 *Mostly Sativa* *9-10 weeks* *f1 Hybrid*
- *Triangle Kush x Old Mother Ghani*. Frosty pheno of the famous kush clone from Florida crossed to a super potent old-school Afghan male by way of Bodhi. Great fruity OG flavor from the Triangle Kush mixed up with the pungent OMG male.
- Great anytime smoke but can be a little overwhelming for inexperienced consumers.

Nikah #5 *Mostly Sativa* *9-10 weeks* *f1 Hybrid*
- *Triangle Kush x Old Mother Ghani*. Afghan leaning pheno, largest yield, grapefruit & body odor smell. Mother is the famous kush clone from Florida crossed to a super potent old-school Afghan male by way of Bodhi. Great fruity OG flavor from the Triangle Kush mixed up with the pungent OMG male.
- Great anytime smoke but can be a little overwhelming for inexperienced consumers.

Nikah #7 *Mostly Sativa* *9-10 weeks* *f1 Hybrid*
- *Triangle Kush x Old Mother Ghani*. Strongest, sativa-leaning effects pheno of the famous kush clone from Florida crossed to a super potent old-school Afghan male by way of Bodhi. Great fruity OG flavor from the Triangle Kush mixed up with the pungent OMG male. One of the strongest plants we have.
- Great anytime smoke but can be a little overwhelming for inexperienced consumers.

New Berry #6 *Mostly Indica* *8-9 weeks* *f1 Polyhybrid*
- *Blue Heaven f4 x Blueberry f4*. Cannabis legend breeder DJ Short's first release in over 10 years! DJ created Blueberry and used his most potent f4 male to create this new beautiful tasty blueberry treat. Seeds were a very limited release as this plant should be a keeper if you're into blueberry tasting cannabis. Gets a **dark blue/purple**/black type color to it.
- Reported to be very relaxing and to help with anxiety.

****All clones are \$30 (tax already included). Buy 5, get the 6th for a penny. *Every purchase comes with a pack of seeds of your choice for a penny (while supplies last).****

Cosmic Serpent #1 Hybrid 9-10 weeks f1 Polyhybrid
- Hawaiian Blood Dragon f3 x Wookie. Blood dragon has a recessive "bleeding" trait where plants bleed red when stems are clipped. Rubber and sweet smelling pheno, medium size plant, with tons of trichomes. Could be great for hash. Bred by Bodhi.

Cosmic Serpent #8 Hybrid 9-10 weeks f1 Polyhybrid
- Hawaiian Blood Dragon f3 x Wookie. Blood dragon has a recessive "bleeding" trait where plants bleed red when stems are clipped. Fruit bowl/Halls of Medicine smells with the largest yield of this cross. Very bushy plant! Bred by Bodhi.

Cosmic Serpent #10 Hybrid 9-10 weeks f1 Polyhybrid
- Hawaiian Blood Dragon f3 x Wookie. Blood dragon has a recessive "bleeding" trait where plants bleed red when stems are clipped. Super frosty pheno medium size plant. Bred by Bodhi.

Love Triangle #21 Mostly Sativa 10 weeks f1 Polyhybrid
- Triangle Kush x Snow Lotus. Love Triangle is a spectacular plant with great yields and the most unique strawberry/cherry like playdoh tasting buds. Try this and you'll always have a cut in your garden. Great mellow easy going daytime friendly high.

Deep Line Alchemy 5 #13 (Skunk Ass Pheno) Indica 9 weeks f1 Polyhybrid
- Artifact #1 x 1988 G13/Hash Plant. Artifact #1 is an old Afghan Bodhi says smells like a road kill skunk, with super acrid smells. The old school smelly Afghan crossed to Bodhi's powerhouse hash plant will yield nice, dense, strong indica buds for a nice nighttime relaxation.
- Most of the G13/HP crosses are reported to be very strong indicas. Acrid smells have been reported to be brought out more using sulfur amendments to the soil. *Read more on online forums like Rollitup.

Deep Line Alchemy 6 #9 Indica 9-10 weeks f1 Polyhybrid
- Iraqi Ranya x 1988 G13/Hash Plant. Iraqi Ranya comes from StrayFox's brother who served in Iraq and brought these seeds back. The line has some very good strains for making hash and Bodhi crossed a selected female with his '88 G13/Hash Plant male in his 6th version of hash plant remixes.
- Most of the G13/HP crosses are reported to be very strong indicas. The Iraqi Ranya has more of a fruity smell and flavor to it compared to traditional hash plants in the region.

Purp5 #1 Mostly Indica 7-8 weeks f1 Polyhybrid
- Da Purps x Northern Light5. Lucky creation made in Sonoma by the Mantis Medgrower using a clone only Da Purps cut crossed to Northern Light5. Da Purps yielded small diamond studded frosty popcorn nuggets with the best grape soda like flavor and a slight purple coloring. Adding NL improved the yield tremendously while keeping the great flavor, frost, and effects. 52-57 days.
- Great indica relaxing high that's not too much of a knockout strain. Uplifting and okay to smoke during the day. But beware, too much can put you sleep.

Gorilla Biscuit Mostly Indica 8-9 weeks f1 Polyhybrid
- Sensi Star Terpentine cut x Stardawg 195. Created by Seeds of Compassion. This strain is rumored to be very popular for commercial growers. Real turpentine lemon like smell. Short plant that's easy to grow with nice yields. Very strong herb that can put you down if you consume too much. Great taste!

****All clones are \$30 (tax already included). Buy 5, get the 6th for a penny. *Every purchase comes with a pack of seeds of your choice for a penny (while supplies last).****

Black Triangle #6 *Mostly Indica* *9-10 weeks* *f1 Polyhybrid*
- *Triangle Kush x 1988 G13/Hash Plant*. Florida OG crossed to the famous Bodhi hashplant male. Very potent. Hash plant dominant pheno, less fruity taste, strong body high. Medium yield. 1-1.5x stretch on flower.

King's Banner XIII *50/50 Indica/Sativa* *9-10 weeks* *f1 Polyhybrid*
- *King Louis XIII OG x Bruce Banner*. Two outstanding strains combined to bring ultimate kushyness and potency together. This heavy hitter will cause couch lock effect. Very good variety for medical use will combat pain and insomnia. Bred by DarkHorse Genetics.

OG Jack #2 (Jack Herer dominate pheno) *Mostly Sativa* *9-10 weeks* *f1 Polyhybrid*
- *Tahoe OG Kush x Sannie's Jack Herer f6*. Tahoe OG from Cali Connection 2011 Cannabis Cup winner crossed to the Sannie's flagship Jack Herer stud gives huge yields of lemon like Jack tastes and smell with a robust Jack influenced structure. **#2 is more Jack dom**. Expect more sativa effects. Large yields. Created by Mantis Medgrower. Good for stress relief, depression, and creativity.

OG Jack #11 (Tahoe OG Kush dominate) *Mostly Sativa* *9-10 weeks* *f1 Polyhybrid*
- *Tahoe OG Kush x Sannie's Jack Herer f6*. Tahoe OG from Cali Connection 2011 Cannabis Cup winner crossed to the Sannie's flagship Jack Herer stud gives huge yields of OG flavor and nice robust Jack influenced structure. **#11 is more Tahoe dom** with a really unique Tahoe OG smell/taste mixed with a slight Jack Herer minty fresh taste. Expect more OG body indica like effects. Large yields. Created by Mantis Medgrower.

Happy Place #4 *Mostly Indica* *8-9 weeks* *f1 Polyhybrid*
- *Tahoe OG Kush x Ronnie Barrett*. StrayFox made this cross using a Tahoe OG Kush from the same breeder as the OG Jack mom (Cali Connection 2011 - won Cannabis Cup that year) and crossed her to his special male, Ronnie Barrett. Ronnie Barrett is a standout from Tranquil Elephantizer Remix x Goji OG. Much more indica expression in this Tahoe OG cross.

Hot Spot #3 *Mostly Sativa* *8-9 weeks* *f1 Polyhybrid*
- *Prayer Tower x WiFi Alien Kush*. Cool cross from Cannabis Partisan Genetics in Oregon, using a short flowering sativa dominate Bodhi bred Prayer Tower female with a WiFi Alien Kush male bred by OG Rascal. Lemon smells and some other faint fruitiness are added to a main OG smell and taste. Medium yields and fast flowering for a sativa leaning kush hybrid.

Stonemason #5 *Indica* *9-10 weeks* *f1 Polyhybrid*
- *'95 Black Domina '69 x Skunk #18*. Mother placed -1st place Indoor Indica, 2018 Humboldt County Cup. Extremely Musk dirt kush taste and smell. Transfers to flavor very well. Knock down narcotic herb. Extremely caked in silver fat trichome heads and underneath she is usually coated back in purple streaks to full on purple flower depending on temperature. Average to above average yield. Node spacing is average. Calyx to leaf ratio is low she just twists and taco resins it all up. Easy trim. Not overly branchy being a true Afghani in nature. Bred by NatureFarmer in Oregon.

Northern Light5 #8 *Mostly Indica* *8-9 weeks* *f1 Polyhybrid*
- *'89 Northern Lights #5 "Noof Cut" x BCSC Northern Lights #5*. Remember the Sensi Seed catalogs back in the late 80s, early 90s? If you don't, check out our "pictures" page on this website and you'll see what the Noof cut is. She's the plant in those pictures, the poster child of Northern Lights #5. Bodhi got a clone of this plant and crossed it to the British Colombia Seed Company Northern Lights #5 male he selected to rejuvenate the Northern Lights genetics. We open pollinated a pack of those

****All clones are \$30 (tax already included). Buy 5, get the 6th for a penny. *Every purchase comes with a pack of seeds of your choice for a penny (while supplies last).****

seeds to offer f2 seeds (listed below) and some f2 selected cut here. These plants will get the classic NL "fade" resulting in pink, red, and yellow hues throughout. Beautiful, strong, and nice to breed with. Males in this line seem to increase yield and strength, while giving way to the females tastes, look, and effects. This #8 plant is a "chem" leaning pheno that will have the color fade and a nice, more electric, sativa like effects in an indica like plant.

Pineapple Thai #8 *Mostly Sativa* *8-9 weeks* *f1 Polyhybrid*

- *Pineapple Thai Clone x Jack the Ripper*. This pineapple thai cross was made by 707 Seeds in Sonoma and the #8 plant has the exact smell and similar growth pattern of the original mom. The original pineapple thai clone in Sonoma reportedly produces 15% THC and 10% CBD for the best daytime euphoria from the 3:2 THC:CBD ratio.

Jack Light5 #1 (Jack "Dam" cut) *Mostly Sativa* *10 weeks* *f1 Polyhybrid*

- *Sannie's Jack x Northern Light5*. In house creation from our own Mantis Medgrower matching up our old school 1998 Jack Herer line from Sannie crossed to the Northern Light5 from Bodhi featuring the Noof cut from 1989. The NL influence really re-awakens this classic Jack Herer line. Could be our biggest yielder too! This #1 plant is a dead-ringer of the original Jack Herer in Amsterdam from '98. Tastes like a lemon, black licorice and pepper fusion. Gives you a big time uppity high with a slight haze like the original. Great plant and super vigorous. Easy to grow for beginners. Shorter flower time than Jack Herer.

Jack Light5 #3 (Passion Fruit cut) *Mostly Sativa* *10 weeks* *f1 Polyhybrid*

- *Sannie's Jack x Northern Light5*. In house creation from our own Mantis Medgrower matching up our old school 1998 Jack Herer line from Sannie crossed to the Northern Light5 from Bodhi featuring the Noof cut from 1989. The NL influence really re-awakens this classic Jack Herer line. Could be our biggest yielder too! This #1 plant is a dead-ringer of the original Jack Herer in Amsterdam from '98. The Passion Fruit cut was a very pleasant surprise. Don't let the Jack like smell fool you. Each exhale finishes in a nice passion fruit flavor in your mouth. Really awesome. Similar soaring Jack high with some haze. Nice yields and grows more squat than the #1.

Ace of Spades #3 *Mostly Indica* *8-9 weeks* *f1 Polyhybrid*

- *Black Cherry Soda x Jack the Ripper*. This is the BCS pheno from this line with an unmistakable black cherry soda smell on the flower! Quick finishing for a Jack cross, this is a fun plant to grow and yields nice big frosty buds that are a treat for anytime of the day. TGA Subcool cross with high THC-V content.

Fouroura Borealis #8 *Mostly Indica* *8-9 weeks* *f1 Polyhybrid*

- *Four Way x Northern Lights #1*. This is a cross made by Coastal Seeds, using their favorite Northern Lights #1 father. They describe Four Way (an old Netherlands strain from the 80's) as the best plant they ever grew. Really cool plant and nice yields.

****All clones are \$30 (tax already included). Buy 5, get the 6th for a penny. *Every purchase comes with a pack of seeds of your choice for a penny (while supplies last).****

Seed Packs - 10 seeds per pack (\$20 per pack OR 1 penny with any clone purchase)

Egyptian Sinai *Mostly Sativa* *9-10 weeks* *IBL*
- Heirloom f2s (10-15% of seeds will be a f1 cross with Petrolia Headstash IBL) from the Bedouin tribe in Egypt via the Real Seed Company. Vacationers still flock to the region to gobble up any of the now famous hash from the wondering tribe. These seeds were f2'ed here in Oklahoma under LED and reacted fine in a small tent. You will find a nice selection of phenos both indica and sativa dom. Effects more sativa like. Nice yield for mostly **auto-flower plants**. Reported CBD 1-3%. Made in Oklahoma!
OUT OF STOCK

Seed Packs of 10 seeds (\$40 per pack, tax already included in the price)

Trey Way *Indica* *8-9 weeks* *f1 polyhybrid*
- *Black Triangle #3 x Kandahar Afghan*. Brand new cross of the super potent Black Triangle (Triangle Kush x '88G13HP) gets the Afghan treatment. Great things expected from these. Made in Oklahoma!

Trey Dub v1 *Mostly Indica* *9-10 weeks* *f1 polyhybrid*
- *Nikah #3 x Kandahar Afghan*. The Triangle Kush influence in the Nikah meshed nicely with the Old Mother Ghani father. Now we've added another Afghan to the mix for an Oklahoma triple-double, called Trey Dub. Nikah #3 was the frostiest Nikah, with a grapefruit like funky smell. Made in Oklahoma!

Trey Dub v2 *Mostly Indica* *9-10 weeks* *f1 polyhybrid*
- *Nikah #5 x Kandahar Afghan*. The Triangle Kush influence in the Nikah meshed nicely with the Old Mother Ghani father. Now we've added another Afghan to the mix for an Oklahoma triple-double, called Trey Dub. Nikah #5 was the largest yielding Nikah, with a slight sweet smell and a faint funk. Made in Oklahoma!

Dragon Af v1 *Mostly Indica* *8-9 weeks* *f1 polyhybrid*
- *Cosmic Serpent #1 x Kandahar Afghan*. We're hoping about 25% of these will carry the "bleeding" trait, where the stems will **bleed a dark blood** red sap if you cut them. The Afghan influence will hopefully give this super fruity strain a little funkiness to it. Cosmic Serpent #1 was the sweet and rubber smelling pheno with a medium yield. Made in Oklahoma!

Dragon Af v2 *Mostly Indica* *8-9 weeks* *f1 polyhybrid*
- *Cosmic Serpent #10 x Kandahar Afghan*. We're hoping about 25% of these will carry the "bleeding" trait, where the stems will **bleed a dark blood red** sap if you cut them. The Afghan influence will hopefully give this super fruity strain a little funkiness to it. #10 was the sweet smaller yielding pheno. Made in Oklahoma!

****All clones are \$30 (tax already included). Buy 5, get the 6th for a penny. *Every purchase comes with a pack of seeds of your choice for a penny (while supplies last).****
