

LIFT
SERVICES
SYDNEY

**Find your
inspiration
and design
your own
space.**

Three ambiances to create a unique **experience** when travelling in your lift.

HARMONIA

Ambiances inspired by natural elements, transmitting peace and serenity.

INNOVA

Innovation applied to design, offering refreshing trips that are full of energy.

RINACCIA

Ambiances based on timeless elements of contemporary architecture, offering an elegant experience.

Designed to take care of you.

Your health and that of your loved ones is important to us. That's why at ISS we have developed a series of solutions that contribute to your well-being:

Air purifier

The air purifier with nanoe™ X ^{*1)} technology inhibits the activity of viruses ^{*2)}, ensuring that the lift car air is clean and guaranteeing your well-being. It has a highly efficient purifying function.

nanoe™ X technology is based on a multitude of hydroxyl radicals grouped into water droplets that inhibit viruses, transforming their protein.

Furthermore, the high level of air renewal in a lift reduces the risk of exposure. The greater the lift ventilation rate, the lower the accumulated dose to which passengers will potentially be exposed.

*1) nanoe™ X is a registered trademark of Panasonic Corporation.

*2) Test results may vary according to the exposure area and air quality. Further information at

Anti-bacterial car walls

The innovative materials used on the lift surface keep your lift car clean, thanks to the antibacterial surface.

Antimicrobial handrails

The handrail is the element used to facilitate access to the lift car, which is why we protect our handrails with an antimicrobial treatment that prevents both bacteria and viruses.

A space with universal accessibility

Next includes accessibility elements to ensure that your lift is a universal space, so that it can be used by everyone in safe, comfortable conditions and in the most natural and independent manner.

Included features • Accessibility pack

PRECISE STOPPING
Optimises accessibility when entering or exiting the lift.

INDUCTIVE/ACOUSTIC COUPLING
For people with hearing disabilities.

BRAILLE PUSH BUTTON

CAR PUSH BUTTON
Model with additional contrast.

CAR AND LANDING GONG
Notification of the lift reaching its destination through acoustic and visual signal.

ERGONOMIC HANDRAIL
Heights appropriate for users either standing or in wheelchairs.

MULTILINGUAL VOICE SYNTHESISER
Announces floor level, direction of travel and door operation.

SAFETY MIRROR ON THE BACK WALL
Facilitates detection of obstacles when exiting.

PHOTOELECTRIC CURTAIN
Avoids the risk of the doors hitting, allowing a safer use of the lift.

AUDIBLE AND VISUAL PUSH BUTTON INFORMATION
Their location, design, colour and visual / tactile (Braille) / sound operation comply with the EN 81-70 standard.

Other configurable options

- Tip-up seat.
- Visible direction arrow that displays the lift's direction of travel prior to its departure.
- Rear-view mirror.

Minimum car dimensions

We have cars with dimensions in accordance with EN 81-70. Consult standard dimensions tables.

Discover the beauty in the details.

Quality involves fighting time to maintain the aesthetics and functionality of the lift for as long as possible.

The only way to respond to this challenge is through smart design and excellent quality materials.

When a person enters our lifts, this condition must be present throughout their trip.

All good things last longer.

We comply with the highest standards of quality.

1. AVANT-GARDE MATERIALS

Our cars are configured with the highest quality and performance components. Compact core laminate panels with improved durability.

2. ACCESSIBILITY EN 81-70

Compliance with the most demanding accessibility regulations. Through car and door dimensions combined with other advanced safety and communication elements.

3. IMPROVED CAR DESIGN

The car structure allows obtaining better surface usability, maintaining the resistance level with an optimised weight.

4. SUSTAINABLE DESIGN

Reduced environmental impact thanks to the materials used, the optimisation of manufacturing processes and the energy-saving features included.

You design, and we make it possible.

We offer a wide collection of pre-designs so that you can customise your lift car to your own taste.

Unique collections to create your own lift car.

Select your preferred pre-design and customise each and every detail to your own taste, with all the options offered

Reference

Modern and inspiring designs to meet the most functional needs. The colours on the walls bring luminosity to the car and a modern and fresh ambience.

Selection

Cars with a unique design that blend into the building's architecture, providing a touch of distinction through the combination of materials and finishes.

Premium

Spaces that blend into the most avant-garde buildings. The combination of textures and metallic finishes on the walls increases the depth of the car and generates a unique style.

Unique

Unique designs that adapt to unique settings, combining different materials such as stone, metal and glass.

Class ambience

Others

- Without cladding (for local fit out)
- Tip-up seat
- 2 entrances: 90°, 180°, 270°

Car indicator

- Others**
- Car direction arrows
 - Overload indicator (buzzer & light)
 - Voice synthesizer
 - Direction arrows on entrance return
 - Car gong
 - Inductive acoustic coupler

Landing indicator

Others

- Next departure indicator
- Landing gong

Car push buttons

The push buttons are water-resistant (IPX3 according to 60529).

- For anti-vandalism lifts (Category 1), ISS also offers comprehensive solutions, which comply with the EN 81-71 standard in its entirety (push buttons, displays, doors, lighting, ceilings, walls, floors, mirrors, enclosures, etc.).
- Others**
- Door close push button
 - Key switch push button (Standard or eurocylinder)
 - External call cancelling
 - Coded call

Landing push buttons

Frames can be combined with stainless and black stainless button panel

Others

- Anti-vandalism frame
- Anti-vandalism push button
- Dual lighting available: white in stand-by, blue when activated

Car operating panel

- Dual lighting available: white in stand-by, blue when activated.

Car operating panel material and/or ceiling and/or doors (car and landing)

Stainless panel
