

1/4/18 LATITUDE PLOW REPORT

Winter Storm Advisory 1/4 1:00 AM to 1/4 7:00 PM

We keep you safe by getting to pavement. When snow is heavy expect that snow removal services will continue 24 to 48 hrs after the storm.

Need salt or to manage car relocations to clear lots? Text us and we'll schedule proper timing to coordinate and manage parking and traffic management requirements and provide anticipated arrival times.

This heavy wet snow storm combined with bitter cold to follow ice buildup should be anticipated, ice is the most challenging condition we face in snow removal. To ensure sidewalks stay safe proper treatment is required.

Stay safe, Keith Schifano
