

Quantum Resonance Crystal Light Therapy

Crystal light therapy is a personal experience lying on a massage table for 30 – 60 minutes under a line of different colored crystals that are suspended by essential oil and precious metal infused Vogels which resonate at therapeutic frequencies to restore balance and harmony within the function of the chakra centers. The purpose is to energetically stimulate stagnate or blocked energy centers that influence vital areas of the body.

What are energy centers?

Our entire body system is an energetic field made up of many levels of energy. Every body organ functions at a certain frequency as do our thoughts and emotions. Our seven energy centers correspond to various aspects of our entire being from the psychological and emotional to specific body organs, and our physical well-being. They are the central energy flow pathways that influence the way we feel, our overall health, and our life's vitality.

Crystal light therapy assists in balancing and aligning these energy flow pathways and clears blockages that may have accumulated over time through experiences of stress, anxiety, depression, toxicity, and / or negative thought patterns.

The Anatomy & Physiology of Energy Centers

Energy Centers are under the control of our Autonomic Nervous System, which is also part of our Limbic System, which controls harmony, balance, and regulation. When an energy center is out of line or disconnected, there is a direct effect on the way we feel and how we function. Crystal light therapy helps to restore balance and correct the frequency in our energy centers.

Our **first chakra** is the root chakra located at the base of the spine, the pelvic floor, and the first three vertebrae, the root chakra is responsible for your sense of safety and security on this earthly journey.

Our **sacral chakra** is the center of emotions, feelings and stimulates pleasure. It plays an active role in our sexuality and expression of our sexual needs and desires.

Our **solar plexus** chakra is where your power and self-confidence manifests.

Our **heart chakra**, also referred to as "anahata" means unhurt, unstruck and unbeaten. It is the fourth primary chakra and serves as our center of love for oneself and others, compassion, empathy and forgiveness.

"First, do no harm."

Our **throat chakra** is responsible for communication, self-expression, and the ability to speak your personal truth.

Our **third eye chakra** refers to the gate that leads to the inner realms and spaces of higher consciousness. In spirituality, the third eye often symbolizes a state of enlightenment. The third eye is often associated with religious visions, clairvoyance, the ability to observe chakras and auras, precognition, and out-of-body experiences.

Our **crown chakra** is the meeting point between the physical body and the universe and soul. This chakra embraces the gratitude for your life and is the center of enlightenment and awareness. When the crown chakra is balanced, it brings feelings of serenity, joy, and deep peace about life.
