

AMERICAN LEGION
HAMMOND POST

No. 3, Incorporated

KINGSPORT, TENNESSEE

❧ T R I B U T E ❧

“The American Legion is a unique organization. No child can be born into it. No proclamation of president, edict of king or dictator can command admission. No university or institute of learning can issue a diploma authorizing its holder to entrance. No act of Parliament or Congress secures recognition. The wealthiest man cannot purchase the position. Its door opens to the presentation of a bit of parchment, worn, torn, and begrimed as it may be, which certifies to an honorable discharge from the Army, Navy, or Marine Corps of the United States during the World Wars I and II, and, unlike any other organization, no new blood can come in. The American Legion is also unique in that it has no predecessor; it can have no successor.”

HAGAN HAMMOND

AMERICAN LEGION HAMMOND POST

No. 3, INCORPORATED

1948

KINGSPORT, TENNESSEE

❧ DEDICATION ❧

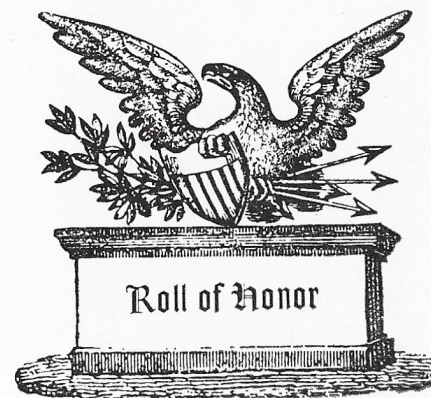

This little booklet is dedicated to the thousands of men and women, both living and dead, whose courage, devotion to duty, and self-sacrifice gave to us the continuing opportunity to build and maintain AMERICA—the land of the free and of opportunity for the uncommon man—on that foundation of true government of the people, by the people, for the people; and in their memory and honor we rededicate ourselves to forever perpetuate and defend that Divine precept of the equality of Man.

The names that follow are those of individuals whose homes or places of employment were in Kingsport or its immediate vicinity who gave their lives while on active duty in any of the armed services of our Nation during war-time. Although it is recognized that the list may be incomplete, the American Legion exhausted all existing means over a fairly long period of time to ensure that every possible source of information would have knowledge of the American Legion's effort to secure the names of all who should be on this Roll of Honor. There were literally hundreds of letters written to business establishments, industries, churches, clubs, newspapers, schools and other organizations; letters were written to Selective Service and other government agencies; repeated requests for data were carried in daily and Sunday newspapers and were broadcasted from Radio Station WKPT; and all sources suggested were immediately contacted. The list that follows is the result of the best possible all-inclusive efforts of Hammond Post No. 3.

To those whose names follow we offer humble, sincere, and devout thanks. They gave their lives while serving their and our Country to the end that we and ours might survive and might continue to enjoy the blessings of a free democracy, and so that that democracy itself might survive and might enrich the entire world with its ideals and philosophies. To these persons who made the supreme sacrifice for their Nation we render all honor.
