Lassen County Fair has Been Approved with Limitations

The Board of Supervisors met with County leadership Tuesday and decided to move forward with hosting the Lassen County Fair for 2020. However, there are limitations in effect with regard to events and there will be heightened consideration given to safety and social distancing. Our Incident Commanders are using the state guidance and reaching out to places like Disneyland and Legoland to ensure they are doing everything they can to keep fairgoers safe.

Fair Activities:

The company that normally provides the carnival rides has decided not to come to Lassen County this year. As for the rest of the events, the board and the fair staff have decided to move forward with all activities that they can modify to be held in a safe manner. This Saturday, the Lassen County Fairgrounds will hold its first event: the Races. Please come out to support our local fair.

Lassen County COVID-19 Counts:

Active	7
Recovered	2
Pending	104
Negative	1,573
Total	1,686

Official Schedule of Events:

The staff members for the fair are working tirelessly to complete their plan for this year. We will release the schedule once it is completed.

Update on the Positive Cases in Lassen County:

Update on the 5 Positive Cases:

To date, nine (9) Lassen County residents have tested positive for COVID-19.

Reporting COVID Positive Cases on LassenCares.org

As the number of cases in Lassen County has risen in the last few weeks, we've been asked several times about our reporting process and why some of the information shared in larger counties, such as demographics of Covid-19 positive cases, number of hospitalizations, and number of recovered cases, are not being shared in our county.

The Incident Command team will be revising how testing and case numbers are being reported in the coming weeks as we begin

to see people recover from the virus and are confident we have an accurate picture to report.

As to demographics of those who have tested positive, it is our belief that in such a small community the release of information such as gender, ethnicity, and age of infected individuals would directly violate those individuals' rights to privacy.

In larger communities it's harder to narrow down an individual's identity based on such vague information, but in our small communities it could be done. For that reason, the information will remain confidential for the protection of the individuals who are doing their due diligence by isolating at home.

Hospitalizations and Recoveries:

Currently none of the Lassen County COVID-19 cases have resulted in hospitalization or recovery.

Hospitalization is defined as an individual who has been admitted to the hospital beyond emergency room care.

Recovery, as defined by Public Health Department, is an individual who was identified positive for the COVID-19 (novel coronavirus) who has received two (2) consecutive, negative test results within two (2) days of each other.

These definitions are subject to change based upon new guidance from the state or federal government.

Testing at the Public Health Department:

The Public Health Department is offering drive through testing for COVID-19 (novel coronavirus) at the Public Health Department. The address is below.

If you would like to be tested, please register online at Lassencares.org. If you have any issues or require assistance, please call the COVID-19 Call Center at (530) 251-8100.

The Public Health staff have worked hard to fix the issues with registration. If you are having a hard time registering, come down to the drive thru during the times (listed below) and a staff member will help register you in person.

Address:

**1445 Paul Bunyan
Susanville, CA 96130**

Reopening New Sectors of Businesses:

Lassen County completed the Attestation and was approved to move further in the Resilience Roadmap in reopening the following sectors:

- Dine-in restaurants
- Hair salons and barbershops
- Casinos

After June 12th, more sectors in variance counties will open following sectors under the state guidance:

- Movie theaters and family entertainment centers
- Restaurants, wineries, and bars
- Zoos and museums
- Gyms and fitness centers
- Hotels (for tourism and individual travel)
- Cardrooms and racetracks
- Campgrounds and outdoor recreation

Businesses should complete a Business Readiness Survey prior to reopening. These surveys will act as the business's safety plan. Public Health will reach out with guidance from the state to assist you with reopening.

The following sectors, businesses, establishments, or activities are **not permitted** to operate in the State of California at this time:

- Personal services such as nail salons, tattoo parlors, body waxing
- Indoor playgrounds such as bounce centers, ball pits and laser tag
- Live theater
- Saunas and steam rooms
- Nightclubs
- Concert venues
- Festivals
- Theme parks
- Higher education
