*\*SPECIAL ORDER—Non-stock item that will have a lead time*

***“WHERE INNOVATION MEETS EXTREME TECHNOLOGY™”***

Titan XT™ features some of the most advanced innovative technology in the industry. With features like the new AnchorLock™ layer, rapid fire zone, and enhanced upgraded warranty options!

The AnchorLock™ layer technology featured in the new Titan XT™ shingles is in the form of a reinforcing strip of polyester fabric on the back of the shingle, attached in the common bond area to provide added anchoring for the expanded nail zone.

Rapid fire zone allows contractors to install quickly and with ease due to a nailing zone up to five times larger than our standard Heritage® nailing area\*, possible through our AnchorLock™ layer reinforcement of the common bond area.
