

Capability Statement

Axe Logistics brings over five years of proven success in logistics and project coordination, delivering reliable, high-volume operations and time-critical shipments. Our experience includes managing scheduled routes, completing box-truck deliveries with liftgate service and inside placement, and providing seamless support for RXO in partnership with Home Depot and Lowe's. In addition, we bring one year of specialized experience overseeing regional distribution for 84 Lumber, where we've successfully coordinated dozens of deliveries daily to both commercial and residential sites.

Axe Logistics offers proven expertise in managing complex relocation and distribution projects. Our team is adept at coordinating multiple moving parts under strict timelines, utilizing appropriate equipment, and implementing efficient processes that ensure shipments arrive safely and on schedule. This proven record reflects our ability to deliver government relocation services with precision, efficiency, and professionalism, while meeting and exceeding all performance and compliance requirements.
