## **HIGH-MASTS LED WITH SOLAR-TUBE SYSTEM**

The High-Masts LED solar-tube system provides light to large areas like shipyards, highways, large warehouses, stadiums, parking lots, etc. These lights are available on 20-30 meters tall poles, with 6 LED lights attached on each of the poles.

## MAIN ADVANTAGES:

- Excellent light performance
- Solar energy without utility-grid
- Easy & fast installation works
- Self-dust & snow cleaning
- Stands with high wind speed
- Durable & cost effective

| Item No. | Item Details            |                |
|----------|-------------------------|----------------|
| 1.       | Model No                | SR-HMST-20     |
| 1.1      | LED Power               | 6x 42W         |
| 1.2      | Lumen                   | 6x 8,400Lm     |
| 1.3      | Solar-Tube Peak Power   | 1,800Wp        |
| 1.3      | Battery Capacity        | 5,530Wh        |
| 1.4      | Charge Controller       | MPPT Type, 60A |
| 1.5      | Pole Height             | 20M            |
| 1.6      | Light Fixture Materials | Aluminum + PC  |
| 1.7      | Ingress protection      | IP66           |
