

Solar Lighting Round Style

With a brightness management system.

Features:

- The whole lamp is designed with high-end aluminum alloy (all aluminum), integrated die-casting, and the appearance of which adopts an anodic oxidation process.
- Intelligent human body induction design is adopted in the working mode.
- The beam angle is 70*150 degrees.
- Lighting for three consecutive nights after full charge.
- Easy to install and design, with an automatic switch function.

Specifications	Details
LED Pieces Power	150W
Lumen	6000Lm@50W, Max.
Solar Panel	18V 45W Mono
Lithium battery	12.8V 24AH LiFePO4
LED Chip	4*30PCS SMD 2835
CCT	5000 – 6500K
Install Pole Diameter	D78mm
Recommended Installation Height	4 – 5m
Recharge time	8 – 10 hours of bright sunlight
Cloudy/Rainy Days	2 days
Working Mode	MPPT control + PIR induction
Material	High-end Aluminum
Product Size	D665*H200mm
PIR Induction	Yes
IP Rating	IP65
Working Temperature	-25C to 65C
Warranty	5 Years
