TO REPAIR OR NOT REPAIR?

A repair may not ALWAYS be the best option.

We provide expert opinion based on what you need.

We offer the price of repair and new so you can decide what works for you.

WAIT, I HAVE QUESTIONS!

? HOW LONG WILL REPAIRS TAKE ?

Varies anywhere between 3-8 business days. We're happy rush an order should you need it.

? IF I ORDER A NEW UNIT WHEN WILL I GET IT?

Depends on availability and unit type. If in stock, we offer free same-day to 1-day delivery. Other times it may be a 2-5-day lead time (more for specialty units).

? I AM CLUELESS, CAN YOU HELP?

Yes! Bring in your unit for inspection. We do our best to gather as much info over the phone and through photos, but a shop inspection will allow us to assess full scope of issues.
