Training Tips:

This month we are going to discuss **Socialization**

-Socializing your dog through puppyhood and adolescence is one of the best ways to ensure that they become a friendly and confident adult.

-Keep introducing your dog to new people. Dogs only remain social when continually exposed to unfamiliar people. Continued pleasant exposure to new people keeps the idea that strangers are good news in the forefront of your dog's mind.

-Keep introducing your dog to other dogs. There are lots of ways to do this: dog parks, play groups, play dates with friends' dogs, and simple leash walks can all help accomplish this. Without this experience, dogs can lose their ability to know how to behave appropriately around other dogs.

Christmas Connection

Come see us this year at the wonderful and magical I-X Center Christmas Connection. We will have all the great dehydrated and specialized treats for your doggo's as well as some new individual treats if you are looking to try something new! There will be an event special that you can only get there so make sure to come out and get that extra special gift for your pup! guest appearances from our rescues. They are available for adoption if anyone is interested or knows someone who is.

Raw Dogs

Our dehydrated and raw products offer a large variety of health benefits for your pup. We love the variety and so don't the dogs and it's great to switch up the different proteins for them, so they don't get bored of each one and try new thinas
