## T-shirt Preparation Instructions Check List

- DO NOT cut the T-shirts before submitting.
- Wash the T-shirts using fragrance-free detergent and either white vinegar or fragrance-free fabric softener.
- If there is a part of the shirt you do not want used, "X" it out using blue painters' tape. We may use everything that is not marked out. This includes logos on the back of the shirt and small logos on the front of the shirt.
- If you have a special request for a particular logo, write the request on blue painters' tape and attach it to the logo.
- Shirts can be submitted in one large trash bag. If you have more T-shirts than will possibly fit within the dimension requested, please separate those T-shirts that may be left out of the design and submit them in a separate trash bag. These shirts will be processed and used if they work in the overall design.
