Programs at PMCI

Vocational Nursing

Program Highlights:

- Nursing fundamentals and hands-on training for job preparation
- General psychiatric nursing with rotations to psychiatric venues
- Maternity & pediatric nursing with outstanding clinical rotations
- Clinical pharmacology and dosage calculations
- Anatomy and instruction in the disease process for all body systems
- Health care ethics and leadership preparation
- Dozens of top-notch, local clinical training sites – many 5 star locations

Basic Nursing Caregiver

Program Highlights:

- Excellent for those who want to be skilled in basic nursing for home use
- Prepares participants for advanced nursing classes in RN and LVN programs
- Learn about the techniques involved in providing personal and self-care support
- Participants earn healthcare provider CPR certification

IV Therapy

Program Highlights:

- Includes essential patient teaching, psychological preparation, patient assessment and observation and essential documentation
- Approved by the California Board of Vocational Nursing and Psychiatric Technicians

Home Health Aide

Program Highlights:

- Expands the role of the CNA as a paraprofessional
- Promotes quality of care in the home care setting
- Provides entry-level skills for employment as a home health aide
- Provides 28 Continuing Education Credits

NCLEX/PN Preparation

Program Highlights:

- 20 hr course
- Created to prepare students to pass exam on first attempt

Nursing Assistant

Program Highlights:

- Fulfills pre-requisite for most RN and LVN programs with a CNA certificate
- Job placement assistance
- Top-Notch Clinical Training locations
- High Pass rates on State Exams
- Individualized instruction with a low student/teacher ratio
- State testing offered at PMCI
- **FREE CNA Boot Camp to all graduates**
- Scholarship to any PMCI Vocational Nursing Program

Continuing Education

Courses:

- | | | |
|---------------------------|---------------------|-----------------------------|
| - CPR and First Aid Cert. | - Wound Care | - Abuse Prevention |
| - Restorative Nursing | - Fire Safety Cert. | - Medical Terminology |
| - Ventilator Management | - Science Reviews | - Hospice and Acute Care |
| - Psychiatric Nursing | - Nutrition | - Patient Assessment |
| - Basic Nursing Review | - Body Mechanics | - Therapeutic Communication |
| | - Infection Control | - Tubing |

Mission Statement

The Mission of Professional Medical Careers Institute (PMCI) is to provide quality training to men and women seeking employment in the health care industry, laying a foundation of excellence and encouraging the attainment of superior education. The school will help students gain pertinent knowledge through classroom instruction coupled with practical clinical application. The directors, faculty, and staff are committed to producing highly qualified and caring graduates, whose skills and service reflect the best practice in meeting the needs of an array of diverse health care settings.

Nursing Pledge

"I solemnly pledge myself before God and in the presence of this assembly, to pass my life in purity and to practice my profession faithfully. I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug. I will do all in my power to maintain and elevate the standard of my profession, and will hold in confidence all personal matters committed to my keeping and all family affairs coming to my knowledge in the practice of my calling. With loyalty I will endeavor to aid the physician and his work, and devote myself to the welfare of those committed to my care."

- Florence Nightingale

Meet the Director

Dr. Helen Taylor, RN, JD

Helen started the school in 2008 after working as an RN for over 20 years and eventually instructing Vocational Nursing students at another school.

Letter From the Director

As a nursing instructor I saw a great need for nursing programs that could provide students with a superior education and with instructors that were committed to producing highly qualified and caring graduates. I believe that learning is a lifelong ongoing experience throughout life and the study of Nursing should be an interactive process between the student and the instructor. This belief is the foundation of our school. We believe that healthcare provides a vital service to individuals, families, and society. The vocational Nurse, Nursing Assistant, Home Health Aide, and IV Therapy Aide are integral components of the health care team and PMCI's training. Our philosophy acknowledges that individuals have intrinsic dignity and self-worth and are complex beings with specific physical and diverse social, cultural and spiritual needs. Each individual, therefore, has the right to seek an optimal level of well-being that includes attention to physical, psychological, spiritual, cultural, and social needs. Nursing is a profession based on principles taken from the biological, physical, and behavioral sciences. Nursing care is an art that maintains human dignity and is based upon genuine concern, compassion, and caring. The profession is based on timeless principles and fundamental ethical standards that require personal integrity and professional accountability. It is the Nursing Director's responsibility to establish and uphold standards of quality education. The Nursing faculty shares in this commitment as they carry out the responsibilities to plan, organize, facilitate, supervise, and evaluate learning experiences. The student is an active participant in the education process and is responsible for his/her own learning progress while demonstrating professional behavior and growth. The nursing faculty collectively recognizes the dignity and worth of individuals and believes that nursing education should be available to all who are capable of achieving the required competencies and expectations. **Dr. Helen Taylor, RN, JD**

Financing

PMCI offers financing options for both the Vocational Nursing and Nursing Assistant Programs. These plans come in the form of monthly payments, installments, or full payment before the start of class. PMCI accepts payments in the form of checks, cash, money orders, or credit card. PMCI recommends that students seek out private loans from local banks and credit unions. For more information please see our student catalog in the disclosures section of our website, pmcicareers.com.

High Pass Rates!

Consistently above state average!

LVN to RN Bridge

Nursing schools in California allow licensed vocational nurses to become registered nurses with just one to two years of additional training. Now, through the use of LVN to RN bridge programs most LVNs can become registered nurses in two to three years. Today it is difficult to get accepted into a nursing program. With prerequisites and the waiting lists, it takes an average student up to six years to become a registered nurse with an associate's degree. Most vocational nursing programs are less difficult to get into and only take 12 to 16 months to complete. When graduates successfully take the NCLEX PN and become licensed nurses, they can apply to one of many RN bridge programs offered at California colleges and other out of state programs.

Local RN Bridge Programs

LVN to BSN

CSU: San Bernardino
CSU: Long Beach
Azusa Pacific University
Mount St. Mary's College

(Partial List)

LVN to ADN
