

High Performance Process Viscometers

- **High repeatability**
- **Configuration for high temperature and high pressure working conditions**
- **Approved design for explosive areas and sanitary processes**
- **Simple installation, no maintenance and non-wearing parts**
- **Varied mounting configurations and positions allow optimal fluid measure**

MEASURING RANGE:	From 0.1-10mPa.s to 1000-1 000 000mpa.s High Sensitivity 0.01-10mPa.s
REPEATABILITY:	+/- 0.1% of Full Scale Range
OPERATING RANGE:	-30 degrees C
WORKING PRESSURE:	60 bar option to 500 bar and up
IP67 Rated:	Internal or External Temp Probe
MATERIAL:	316l Stainless Steel
