# IN THIS ELECTION YOU ARE THE MEDIA

**This fall we're launching a statewide initiative to equip local leaders and activists with the messaging they've been asking for, with a unified voice to communicate our vision and contrast it with the opposition's record.**

**Built for trusted messengers in every community, it offers a content library tailored to each town, with materials you can use for every kind of outreach - from digital ads, emails, and social media to mailings, postcards, text messaging, letters to the editor, and traditional press.**

**This resource is designed to:**

- Communicate our values in persuasive, emotionally resonant ways**
- Hold Republicans accountable for harmful votes**
- Connect with voters on the issues that matter most**

**If we don't define the choice for voters in 2026 and beyond, it will be defined for us.**

**Now is the time! Join us on September 13th - together, our united voices will fight and win for New Hampshire.**
