

Babe's TEA ROOM

Frida Colo Collective

Bees & Babe's

Our local 5280 Bees are FREE TO FORAGE & not artificially fed. An astonishing amount of "honey" sold is from Bees fed sugar, synthetics, and cut with substitutions.

Our Bees pollinate and collect from around **2 million flowers** to create 1 single pound. With flourishing immune systems and colonies, they feast on a vast menu of Colorado plants and flowers. Bees raised regeneratively with a beautiful abundance of diverse pollen and nectars. The honey is raw, pure & gently harvested locally. We are careful to leave plenty of honey for the Bees to continue sharing their amazing gifts with us humans!

We love sharing our beehives & very special honey with you!

Frida Colo Collective Bee Keepers: Melina, Jennifer, & Darko

3 oz Honey Sample (TSA Friendly) ... \$16
