## TEA MENU

### READ ME...

Did you know you can “over brew” tea? Taste, antioxidant, and caffeine levels all depend on the amount of time the leaves are in contact with the water. We use specialized tea pots that give you the ability to stop the steep to avoid over diffusing the tea and pulling bitter flavors from the leaves. All of our high-quality loose leaf teas can be steeped 2-3 times. Ask your server for more hot water when you are ready to brew another cup.

Pot of Tea... \$6.00
