## Combining Compassion with Innovation™

Safe and Effective Immobilization & Sedation Solutions for Deer

### MK2™ - Proprietary Formula

Our MK2™ Kit contains a higher concentration of medetomidine and ketamine than the MK formulation and thus provides longer and deeper sedation, extended working time and quick recovery. It's recommended for larger-bodied white-tailed deer and bucks (as well as other large species).

### MKB™ - Proprietary Formula

Our MKB™ Kit builds on our MK combinations by adding butorphanol. The MKB™ formulation offers smooth induction with faster reversal times than the MK formulation due to a lower concentration of ketamine. It's recommended for free range capture scenarios where there is a risk of losing the animal post-injection.

### MK

Our MK Kit was developed to immobilize a broad range of exotic animal species. It's an excellent choice for a broad range of field work offering smooth induction and quick recovery times. It's recommended for use on fawns and smaller does.

Whether you're looking for a family hunting property, corporate retreat, tax shelter, or income-producing business with resort-level event, hunting, and recreational opportunities, you couldn't dream of a better place than Soggy Bottom. Currently operated as a family retreat and commercial hunting, fishing, and event business, you can hunt monster bucks, elk, fallow deer, ducks, quail, pheasant, turkey, and dove, fish multiple large, trophy-managed lakes, stay sharp with multiple shooting ranges & courses, and gather at two of the greatest custom lodges in the country. Located a few miles south of Linden, AL in the renowned Black Belt, Soggy Bottom was established in 2013 with a vision of creating a rustic sportsman's paradise where first class is the standard in all they offer, and no expense has been spared to achieve that. Soggy Bottom is a place where dreams can come true, and it's priced millions under replacement cost. Don't miss your chance to see it.
