SAMSON

Today's Hunting market is seeking big clean typicals. Everyone loves big typicals. At Parris Hollow Farms that is what we are all about. Now we are adding CWD resistance to our breeding program seeking to produce deer in our herd that are CWD resistant. Samson is a 6x6 typical mainframe that has the "look" and will score over 200" @2. He is a "SS" genotype buck carrying CWD resistance markers. Samson is an excellent choice if you are looking for clean wide typical genetics with CWD resistant markers to add to your breeding program this year. Semen will be available later this year with conventional semen at \$750 per straw. Please give us a call for multi-straw or seared semen options.
