Introducing computer-delivered IELTS

Computer-delivered IELTS is here, with faster results and more test availability

- Results in 5-7 days
- More tests, more days of the week
- Speaking test remains face-to-face

You now have the choice between taking IELTS on paper or on computer.

The test content, timing and structure remain the same in both options and, importantly, the Speaking test remains face-to-face with a certified IELTS Examiner.

With computer-delivered IELTS there are more test dates and sessions available, allowing you to choose a test time most convenient for you.

With this new option, your test results will be available in 5-7 days.

Your IELTS, your choice.

“I really liked the face-to-face Speaking test. It feels more natural and you can see the expression of the examiner, just like when you speak to people every day.”

Shanshan, China

Still the same trusted IELTS test

IELTS is the world's most popular high-stakes English language test for study, work and migration purposes.

IELTS assesses your abilities in listening, reading, writing and speaking – in less than three hours.

Whether you take IELTS on paper or computer, you can be confident that you are taking the same trusted English language test, with no differences in:

- Content
- Test timings
- Structure
- Marking
- Question types
- Security
- Speaking test
- Test Report Form

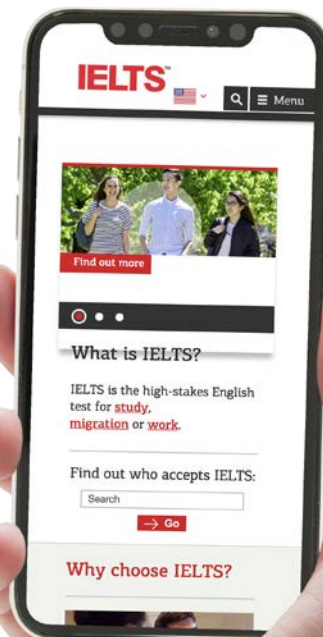

“I really wanted my results quicker, so that’s why I took IELTS on a computer. The test was otherwise the same.”

Tom, Germany

Helping you prepare for computer-delivered IELTS

Before you head into your test, make sure you take time to get familiar with the computer-delivered experience. You can do this by sampling the practice questions and reviewing our test support materials online.
