

Building Capacity of Early Childhood Educators for Social and Emotional Well-Being

The Teaching Pyramid
Model... *Alberta Style*

Alberta  Children's Services

About GRIT

Urgency: The Alberta Context

How are Alberta's Children Doing?

1 out of 4 children
experience difficulty or
great difficulty in their
social and emotional
development

Centres report...

36%

Of centres
are unable
to accept
children with
special
needs/
behavior

40%

Are unaware of
how to access
supports for
individual
children

20%

Asked for
child to be
withdrawn
(most often
challenging
behavior, citing a
lack of skills and
confidence)

(Wiert, et. al 2014)

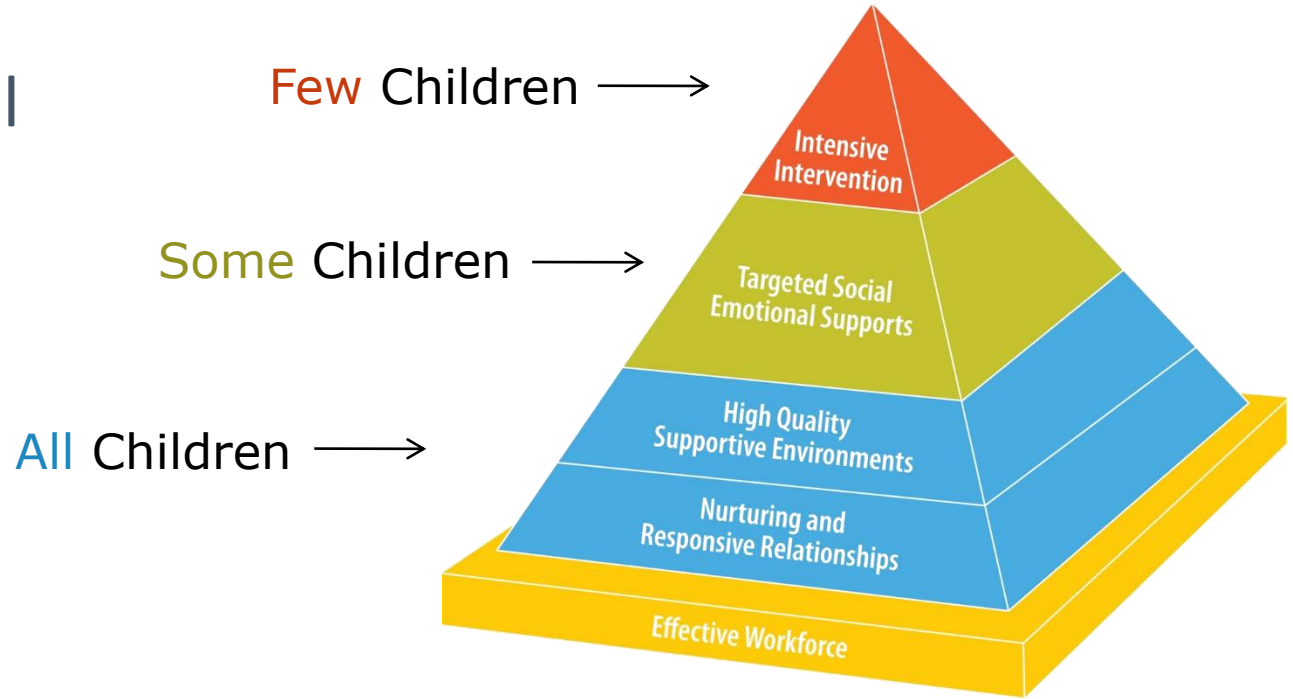

ASaP: Working Differently (2012)

*By providing **access** to the right **supports**, at the right time, ASaP builds upon the skills, knowledge and confidence of educators to ensure the meaningful **participation** and **inclusion** of all children.*

The Teaching Pyramid Model: TPM

Promoting social
and emotional
competence/
preventing
challenging
behavior

Primary Activities

Professional development

Coaching

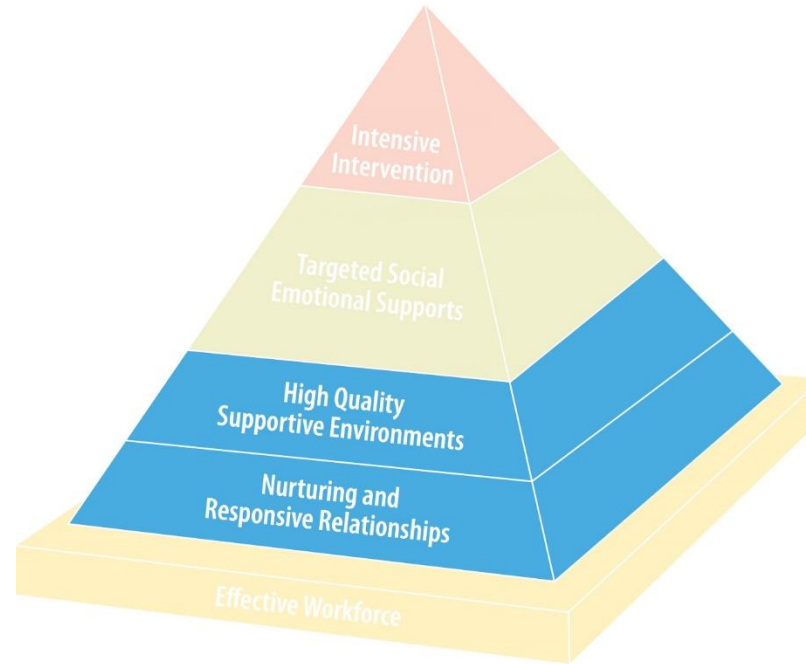

Monitoring

Leadership Development

Supporting Social and Emotional Development

The developing capacity of the child...

to form close and secure relationships

to experience, regulate, and express emotions

to confidently explore the environment and learn

...all in the context of family, community and culture.

Enhancing TPM

Visual Schedules and Routines

Teach Expectations

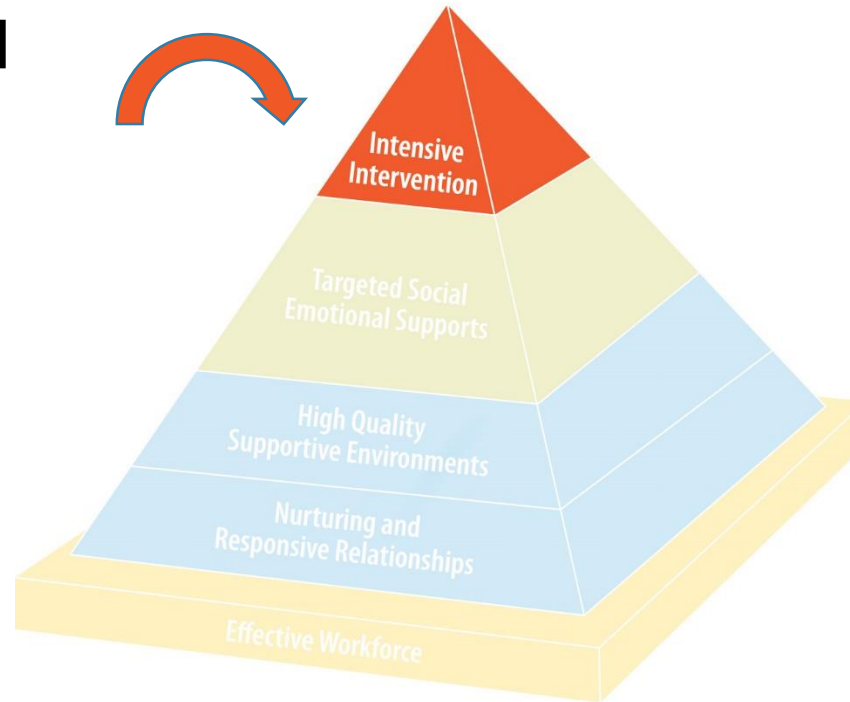

Overarching **standards, principles, or values** that guide our interactions with others in a shared space.

They apply in every context for all children and adults

Targeted Practices

- Few Child

Responding to Challenging Behaviour

“Any repeated pattern of behavior that interferes with learning or engagement in prosocial interactions with peers and/or adults.”

All Behaviour is...

- Communication
- Meaningful
- **Defined by adults**

Family Engagement- Linking Practices to Outcomes

Family Resources and Workshops
