USE TO ADAPT AN **IPS** COUPLER AND FLANGE TO A **PIP** OR **OD** SIZED PIPE.

OLD GHEEN # **D-11**

3/8" x 11" CARRIAGE BOLT

FOR USE W/ MEDIUM REPAIR COUPLER

OLD GHEEN # **F-6**

3/8" x 6-1/2" CARRIAGE BOLT

FOR USE W/ SHORT REPAIR COUPLER

OLD GHEEN # **E-3/8**

HEX NUT 3/8"-16 ZINC PLATED

OLD GHEEN # **G-3**

3/8" x 3" CARRIAGE BOLT

FOR USE W/ STARTER & LONG REPAIR COUPLER
(LARGER THAN 18.7 PIP)

OLD GHEEN # **G-2**

3/8" x 2-1/2" CARRIAGE BOLT

FOR USE W/ STARTER & LONG REPAIR COUPLER
(18.7 PIP AND SMALLER)

NUTS AND BOLTS

FOR USE WITH WATER TIGHT COUPLERS

SALES TERMS & CONDITIONS

All products in this catalog are offered to approved buyers subject to the terms and conditions set out at www.gheenirrigation.com/sales-terms. Selected sales terms are listed below.

Selected Sales Terms

Prices. All prices quoted by Gheen and listed in Gheen's catalog are in United States Dollars (USD). Prices are subject to change at any time without notice. Prices for equipment will be the prices in effect at the time of delivery. All quoted or catalog prices are subject to change as may be required due to increases in labor, materials, energy, overhead and other costs.

Minimum Orders. All orders must be \$50 or more, after any discounts and before shipping charges.

Payment. Payment is due 30 days after the invoice date (Net 30). If paid within 15 days of the invoice date, a 2% cash discount is allowed on product purchases, not including freight, custom galvanizing and powder-coating (2% 15 days). Payments are timely when postmarked on or before the due date or discount date. If discounts are taken on payments that are not timely, the discount taken will be left as a remaining balance and will be subject to finance charges. Past due invoices are subject to a minimum finance charge of \$10 or 18% of the past due balance, whichever is greater. Any check returned for nonsufficient funds (NSF) will be subject to a \$35 handling charge. All claims for corrections and deductions must be made within 10 days of receipt of goods.

Cancellation & Return. Orders which have been sent to production cannot be canceled except with Gheen's written consent and upon terms that will reimburse Gheen for labor, materials, energy, overhead and other costs. All returns must be authorized in advance and shipped to Gheen *F.O.B. Gheen's plant*. The buyer will retain ownership of the goods, pay shipping costs and be responsible for risk of loss until received by Gheen. Saleable merchandise will be subject to a 50% restocking fee. Returned goods may also be subject to a rework charge if Gheen's inspection upon receipt of the goods shows that the parts are not in saleable condition. One year after goods have been shipped by Gheen, they may not be returned. Custom items may not be returned or canceled. Requests for return must refer to the original invoice number and date of purchase.

For Gheen's complete *Sales Terms & Conditions*, go to www.gheenirrigation.com/sales-terms.

Limited Warranty

Gheen Irrigation Works, Inc. (Gheen) has a long list of satisfied customers that will attest to the fact that we manufacture quality products and stand behind our *Limited Warranty*.

Limited Warranty. Gheen products are warranted to be free of defects in material and workmanship for one year from the date of shipment by Gheen to a dealer or other purchaser. Gheen will, at its election, repair, replace or refund the purchase price paid to Gheen when Gheen's inspection discloses a defect occurring in normal usage of a Gheen product during this warranty period. When a warranty repair or replacement is made, it has the same date of warranty limitation as the original part or component.

Damage Limitations. Gheen will not be responsible or liable for: (1) Incidental, consequential or secondary damages, such as (without limitation) crop damage, damage caused by flowing water or any other similar expense. (2) Removal, shipping and installation costs. (3) Damages for aggravation, mental anguish, emotional distress or pain and suffering. (4) Damages for personal injury or medical, mental or counseling treatment. (5) Punitive damages. In no event shall Gheen's liability be greater than the amount of the purchase price paid to Gheen for the defective product.

Warranty Exclusions. This *Limited Warranty* does not cover the following items: (1) Damage resulting from accidents, fires, floods, storms, electrical malfunctions or acts of God. (2) Damage from alterations, misuse or abuse of any covered part or component by any person. (3) Damage resulting from faulty irrigation system design or failure to use specified parts or components. (4) Damage from pressure exceeding the maximum pressure rating of the part or component (most Gheen fittings rated for 130 psi maximum, some items rated at lower pressures). (5) Damage resulting from use of incompatible fittings or components. (6) Damage resulting from failure to follow Gheen's *Safety Recommendations*.^{*} (7) Damage resulting from failure to maintain the irrigation system and its parts and components. (8) Aluminum pipe corrosion. In no event shall Gheen's liability be greater than the amount of the purchase price paid to Gheen for the defective product.

Warranty Disclaimer. Except as set out in this *Limited Warranty*, Gheen makes no warranties, express or implied relating in any way to products it manufactures or sells. Gheen specifically DOES NOT WARRANT MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. There are no warranties which extend beyond the description on the face of this *Limited Warranty*.

Warranty Claims. Any products claimed to be defective shall be returned to the distributor from where it was purchased. The distributor will return the merchandise to Gheen by prepaid transportation for Gheen's review.

Negotiation & Arbitration. Any warranty claim will be resolved by direct personal negotiations. If that is not successful, the claim shall be resolved by arbitration administered by the American Arbitration Association in Eugene, Oregon, under its then current *Commercial Arbitration Rules*.

Attorney Fees. In the event arbitration or other proceeding is commenced to enforce or interpret any provision of this *Limited Warranty*, the prevailing party shall be entitled to recover in any proceeding or any appeal, a reasonable attorney fee to be set by the trier of fact, including a reasonable sum for collection, in addition to costs and disbursements.

Partial Validity & Binding Effect. If any provision of this *Limited Warranty* is held to be invalid or unenforceable, all other provisions shall nevertheless continue in full force and effect. This *Limited Warranty* shall be binding upon the current and all subsequent owners of parts and components manufactured by Gheen.

Waiver. No agent, employee or representative of Gheen, nor any other person, is authorized to waive or modify any term or provision of this *Limited Warranty* except in writing signed by Gheen's president.

^{*} Gheen's *Safety Recommendations* are located in Gheen's current product catalog and can be found at www.gheenirrigation.com/safety-recommendations

SAFETY RECOMMENDATIONS

Gheen Irrigation Works, Inc. (Gheen) manufactures quality parts and components. Like any products, however, they must be used properly. Otherwise, injury and damage can occur.

We created these *Safety Recommendations* to protect our customers and those working with or around our products. Remember, no list of safety recommendations can cover all safety issues. Always be alert, pay attention, look out for risks, use good common sense and be careful.

Design

- **Your irrigation system should be designed by a qualified irrigation design engineer.** Proper design depends on a number of factors unique to your specific application. Without detailed knowledge of your specific application, no manufacturer of irrigation fittings will be able to tell you what is required. A faulty design could jeopardize safety and invalidate your warranty.
- **Only use those Gheen parts & components specified by your system designer.**
- **Only use Gheen parts & components.** Any incompatible fittings can create system failures that can damage your system and cause serious injury. Use only Gheen parts and components to ensure compatibility.

Pressure Rating

- **Make sure system design control pressure does not exceed the pressure ratings for each part & component.** Pressures exceeding maximum ratings can cause system failures, component failures and serious injury. Most Gheen fittings are rated for a maximum pressure of 130 psi. Some products are rated at lower pressures.

Pre-Use Activities

- **Complete the checklist below each time before using your irrigation system.**
 - ◇ Inspect irrigation connectors and gaskets for wear and damage.
 - ◇ Inspect irrigation valves and valve openers for worn or broken parts.
 - ◇ Determine whether valve openers are seated properly on irrigation valves.
 - ◇ Make sure valve opener clamps are fully engaged.
 - ◇ Replace damaged or worn parts.

General Operating Precautions

- **Make sure all people are clear of valves and the end of irrigation lines when turning on the pump until system pressure is stabilized.**
- **Do not use a tool, handle or device to open or close a lever or handle.** Known as “leverage bars” or “cheater bars,” the extra leverage can overstress system components and weaken steel parts. System components can fail and serious injury can result.

Ringband / Eccentric Lock Clamps

Many irrigation system designs for above ground components use a clamp to hold a male and female coupling together. This clamp may be called a ringband lock, circle lock or eccentric lock clamp. They all have the same purpose, to hold the line pressure between the two fittings. These clamps are used with ringlock components, valve openers, end plugs, surge plugs and some risers (*continued on back of page*).

SAFETY RECOMMENDATIONS

Ringband / Eccentric Lock Clamps *(continued from front of page)*

- **Make sure male & female clamp components are compatible.** This is imperative.
- **Release pressure from the system before releasing a clamp.** DO NOT release clamps while under pressure. Serious injury can result.
- **Relieve internal pressures before releasing clamps.** Some systems pump sludge or substances other than irrigation water. These systems can have internal pressures due to internal gas build-up. Failure to relieve this internal pressure before releasing clamps can result in serious injury. Your system design should accommodate these internal pressures.

Valves & Valve Openers

- **Never stand directly over an irrigation valve when opening or closing the valve.**
- **Open & close irrigation valves properly.** Open and close slowly while maintaining contact with the handle to direct the valve away from your body in the event the valve should fail.
- **Do not install or use a damaged irrigation valve or valve opener.**

Surge Plug

- Surge plugs are used to relieve surge pressures in your system. Excessive pressure in the system can cause failures and serious injury.
- **Set surge plugs' variable pressure settings correctly.** Surge plugs have variable pressure settings. Set the plugs' pressure in the field slightly higher than your system's designed working pressure.
- **Do not over tighten surge plugs.** If the surge plug spring can not move, the plug becomes a regular end plug and can not relieve system pressure.

Wheel Line Movers

- A wheel line mover is a power unit for moving wheel irrigation lines.
- **Read, understand & obey safety rules & operating instructions before operating.** Read both the Wheel Line Manual and the Engine Manual before operating the machine.
- **DO NOT ride on wheel line movers.**
- **DO NOT remove muffler deflectors located on wheel line movers' engines.** The muffler deflector deflects exhaust away from the mover hood.

Personal Safety

- **Use safe lifting practices when handling or moving large fittings & components.**
- **Use eye protection when opening or closing irrigation valves.**
