

Everflow

A woman in a white lace dress is shown from the back, holding a masquerade mask up to her face. She is surrounded by a bright, golden glow. In the background, there are fireworks exploding in a dark sky, with some blue and white sparks visible. The overall atmosphere is magical and celebratory.

Me

I am Amanda Alley.

I am in the *Transfiguration* business.

Well... not exactly a business, more a relational endeavor in which I create and cultivate platforms for any Person to engage and be engaged themselves, these ushering a Person into a Transfigured Life; *Body Soul Spirit*.

All awakening us in *EVERFLOW*.

A Glimpse

“Live Life in full Bloom” ~*Bumper Sticker*

“This focus came at the right time. People are feeling increasingly disconnected in the world, and loneliness is pervading our society. The opposite of loneliness is belonging — the feeling of deep and genuine connection to a person, a place, or community. It’s the feeling of being ‘at home.’ The feeling of being known and loved.” ~*AirBNB Joe, Nate, Brian*

“The woman who follows the crowd will usually go no further than the crowd. The woman who walks alone is likely to find herself in places no one has ever been before.” ~*Albert Einstein*

Do you know what differentiates *Rosetta Stone* from most language-learning platforms? They “take the *translation out* of language learning...it is a system that encourages *intuitive* understanding and learning by experiencing.” By immersion. ~*Rosetta Stone Magazine*

What may be common in humanity, generally, may not be normal. I present a new normal. A normal that is the real human, the Real You.

A real normal that is discovered by veering away from *the crowd* and into stillness. A real normal where *effortless immersion* becomes the experience that reveals *to You, the Real You*. This real you is the you in *full Bloom*. And to be in full bloom is to be free to be, and this will always bring us into the *belonging* we’ve each desired since our beginning.

As you intimately know internal rest and stillness, a quickening and sharpness in all ways explodes within. Sometimes subtle, sometimes all consuming.

You may be a scientist, an inventor, an entrepreneur, a teacher, a devoted parent, lover, friend. You may be a film artist, athlete, indie author, business owner, mechanic...child, man, woman. All that you are will awaken all the more, and you will see that you haven’t “bettered” yourself, but are simply discovering who you’ve been all along.

Your dreams will be more vibrant, your visions more tactical, tangible. Where boxes surrounded and limited your scope of understanding, these boxes will begin to fade.

Intuitiveness will be more than abstract whimsical theorem, taking on pragmatic form. And where everything around you had concrete form, fixed in time, this will loosen as present awareness becomes your comfort rather than steadfast familiarity.

Vision & Purpose

To create, cultivate and offer (atmospheres) where any Person, no matter age, gender or personal creed, may discover “the Real You” manifesting “Everflow.”

At the heart of this vision rests a *piece of land* and *spacious structures*...

Every detail, calculating. Every creative move, cohesive. Every atmosphere cultivated through the weight of mine and others' personal transformation known only through experience and a maturing.

~

When a Person is at *rest* within, Life opens up in every imaginable and unimaginable way. This Person who now perceives through a fresh sharpness and clarity, may create, innovate, connect and discover...

~

All extraordinary things are subtle and unassuming. I have found there is great power in meekness, in humility. Sound, wise, cunning. This *land*, these *structures* are just that.

~

This is not for the masses, but the One who comes to call. The One who is drawn in, the One who chooses...

The Real You

Every moment is for you to discover *the real you*.
Through stillness, intuitive sound, wonder and creative engagement.
Through challenge, wrestling, fun and play.

Platforms prepped for inclusivity, honor and wonder ... within your uniqueness, you will discover *You* ...

In these spaces a Person will not prematurely move, for all is natural and in pace with each One's personal conscience and desire.

One will not see before having capacity to see.
Nor will One understand before having capacity to understand.

All is natural, subtle, free & effortless.
Our personal *religious systems* are dismantled here.
What we'll *feel* lessen, is our striving to obtain.

This is no thinking matter, but a drawing in and a choosing.

Everflow is your being finding expression. Flowing without cease, never leaving you lacking.

House

Meet *Everflow*

Land. Structures. Me.

Land ~ 150+ acres, guided trails, fenced perimeter, fruit orchard, stream, large pond.
~ Pavilion, open groomed field, tree house.

House ~ Large open foyer, 2nd floor - 7 bedroom suites, 1st floor - living room lounge, eat-in large kitchen, Unique Boutique, 3 stillness rooms (Stillness room, Oasis, Full Bloom), 3 *Everflow* rooms (Everflow room, Innovariable, Purely)

Me ~ I am here as One desires to connect with me.

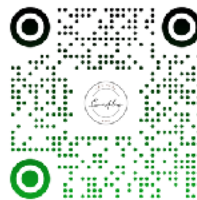

~ Flowing forth from my journey came my writings. Then came a more clear vision of how to be a door or an alley for another to find their own freedom within themselves. From *journey* to *writings* to *vision* unfolding to *land and house*.

~ When embarking upon our own discovery of who we are, or *The Real You*, a division of self transpires so that true union with self may awaken, or arise. This causes unforeseen chaos within, disturbances, disruption, a sense of imbalance.

This *land, house and myself* may feel like a retreat, but when disruption occurs because there is stillness, I am here. Stillness will always be a conduit for disruption so that true Life, union, peace and awareness may be a reality. *I will be here during these times*.

~ Once stillness continues to be developed every aspect of our unique knowing and understanding within every field of study, life, entrepreneurialism, vision and waking dream will go even further than it has ever been.

~ And for those who intentionally seek a deeper intimacy with Creator, this you will see...and you will experience a life that cannot be described.

The Foyer

From porch - through double doors (warm & inviting), into a very large and open rounded foyer.

3 doorways leading to 3 sections of the first floor.

1 open doorway enters into *Table Talk*, 2 doorways enter into 2 pergola covered walkways, leading into 2 other sections of 1st floor home.

A large bright and warm spiral staircase rises to the 2nd floor holding 7 bedrooms suites.

- A warm wood floor transforms into an epoxy resin river flowing from foyer into the *first* opening.
- A warm sturdy wood floor transfigures into a cobble stone path leading into the *second* opening.
- The consistency of natural wood flooring moves the travelers feet into the *final* opening in which a pergola covered walkway presents itself.
- Art work of many types paint the walls.
- Plants of many species conspicuously kiss the space, while cozy seating for one or more presents itself.
- Large floor to ceiling windows grace the front of the house, revealing a wrap around porch with seating all about.

The aesthetics, the architecture, the greenery and seamless flow of the space is one to be honored and enjoyed ... *but* it is the **atmosphere** of wholeness, of eternity, running through all physical forms that illuminates our being. Welcoming us as true family does.

This space becoming a *thin space* for *Person* to taste the healing that awaits. The peace and insight that awaits.

Table Talk

Table Talk is a living room lounge/coffee house purposed with intentional ascetics/design & atmosphere, for the cultivating of inclusivity, honor and belonging.

Table Talk will be connected to *Taste of Soul*, which is the large eat-in kitchen, open to all. As well as a walkway leading to latrines.

Table Talk is inspired and designed through my writing, *Table Talk*.

- Over stuffed cozy seating
- All corners rounded (as much as possible)
- Warm lighting
- High ceilings (12-15 ft on 1st and 2nd floor)
- *Table Talk* writing displayed, Einstein quote displayed
- Horse shoe tables, rounded cozy seating
- Fluid, eternal, cohesive, seamless
- Creative engagements, meditational sections
- Blankets
- Power hook-ups

A concept for this *Generation* who is alive
Engagements with self, life, people and spirit are happening!
A longing to belong, a longing to be family and friend remain
For too long fear of *being wrong*, *being rejected*, *being hurt* have cast its shadow ...
But now ...

A table has been placed, presented
Blank, infinite in space
To begin, a few come. They sit, they rest. They breathe ...

Correction cannot be found
Relating *Another's* experience to self as a marker for *right or wrong* cannot be heard, for unconditional love is present

Belief systems fade, mantras fall, patterns change ...

Bodies relax a bit more in this welcoming atmosphere
One pioneer begins
She shares of present experiences, encounters and ponderings ... she pauses
There is stillness. One question arises ... pure
~ childlike in *wonder*

Another trailblazer shares. Stillness, engagement ...

And when One wrestles through a personal shedding of fixed belief expressed uniquely by this One, *unconditional Love* remains, for All desire the same ...
Belonging, Family, Friend ... *Fullness of Life*

Will this flickering desire become a consuming inferno till all that is seen is unconditional *Love*?
My bet would be *Yes* ... for this unconditional *Love* is *Belonging*, is *Family*, is *Friend* and is what hewn Us, keeps Us, awakens Us
This *Love* is personal, is chosen

Taste of Soul

Taste of Soul is a large open eat-in kitchen inspired and cultivated through my book *Taste of Soul*.

This book is a gathering of many recipes gifted to me from friends and family all over the world. Passed down from their family's generational recipes or created from personal intuition, their souls lead the way, and so this kitchen's atmosphere and pragmatic purpose is now here for all who come onto this property and into this house!

Taste of Soul is connected to *Table Talk* living room lounge area. As well as Unique Boutique.

- Large skylights, with no bedrooms above
- Large island with seating all around
- 10-15 person table with cozy seating
- Lounge area, overstuffed couch(es)
- Butcher block counters
- Full espresso bar
- Restaurant style fridge/freezer and appliances
- Written out and framed description of what *Taste of Soul* is

I love this word "Confectionious!" It means confectionary and infectious all bound-up in One. In other words, "this is so delicious, I must share!"

Within your hands rests a gathering of, not only recipes from around the world, but the Souls of those who have passed them along from their fathers, mothers, grandparents, aunts and uncles.

Within are also recipes crafted from personal intuition, resonating a fresh warmth within the lives of family and friends.

This is a very unique book, and I know it is merely one of an infinite number contained within each of our own lives. Within our diversity is unity, and these "feasting moments" become sweet, funny and forever shaping memories.

Enjoy your moments in the kitchen, on the boat, or anywhere you find your Soul connecting with Another. It is Here the expression that is food is birthed!

Details:

- Fresh veggies and produce purchased (Once grown on property, gathered) every Thursday and Monday. Always available for eating, cooking and baking
- All baking/cooking staples fully stocked
- Pre-made food ... kitchen accessible to all, no delivery from outside or ordering from within. Come grab or make for yourself
- Honor for space and materials, food and people

As the book carries a certain pulse so too does this space within *Everflow*.

Fresh moments of connecting. Freedom to use anything in the kitchen!

Learn to brew your own espresso shots, slice veggies, mix ingredients...there is no limit to what a person or group can engage in. You can't mess up ... just go.

Much like *A Taste of Soul* this kitchen is open to all, for there truly is unity in diversity. Practice with the recipes found in the book or unlock your own imagination and family-of-origin tastes trusting what is within you ...

As you are drawn in to eat, prepare and journey through new tastes and combinations, do so knowing that what you cultivate *here*, you take with you anywhere!

These rooms hold the key to truly knowing what stillness is. And so knowing ourselves, purely.

Oasis - The Room is cultivated and prepared for One to enter in. To discover even further than already known, this personal *River of Life*.

If you venture into this room, this is what you shall find. What you shall taste of, drowning in as much as you desire!

- *The atmosphere feels to be more extensive than the air breathed. You can feel a calming sync up within your personal essence.*
- *There is a play here that removes the need to avenge, explain, justify and figure out. Contentment in neutrality.*
- *The aroma of a Presence moves through your senses, colors the pallet of your awareness ... and you rest. You rest.*
- *A sweet and subtle awareness of nutrients and energy for body, is known in this place.*
- *Through this River of Life a map of sorts begins to develop within the conscience. A solidifying of navigation, personal and only meant for you, takes on form ... increasing and increasing in detail!*

This thickness is so intertwined within your own self you barely are aware of the distinctions in the room.

They are also

Disruptive, Challenging and quiet *Loud*

and all happening within *Us ...*

And for me, this really is all that matters. All that will ever matter. This *Room* carries the same for you.

1st Floor Bathrooms

Crafting and creating space for *DIMENSION*

Within the *Foyer* three sections present themselves. The first section and to our left leads us into *Table Talk*, *Taste of Soul* and *Unique Boutique*. Within *Table Talk* (our living room lounge area) we discover a hallway. This hallway is reminiscent of Charles Bridge in Prague with its warm historical charm and picturesque European luminaries lighting the way.

Charles Bridge is said to have been a part of the *royal route*, and for every person who moves through the presence of this space, you too will know the truth of being royalty. It is in your blood, in your destiny to know yourself as such. So why a *royal route* to a bathroom? ... well, let us walk down this path and into these spaces!

Directly across from one another we encounter strong-standing Resin River Barn Doors. Etched upon each is the letter *M* or the letter *W*.

One is expressed for *Man* the other for *Woman*.

To begin, each person who passes through the proceeding door moves into a discovery of their own distinction of male or female.

If we were to flip this *M* or this *W* upside down, they would be the exact same. *We* are the exact same while remaining true to our complete distinction.

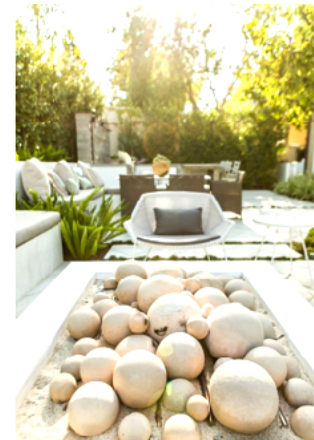

This world is something to explore, a great adventure into what it means for you to be *Man* or to be *Woman*. Empowered in each as we see our Creator as each.

As you move through your own section you encounter the natural Oasis found in the 5 Oceans upon our Earth. *Arctic Ocean*, *Pacific Ocean*, *Atlantic Ocean*, *Indian Ocean*, and the *Southern Arctic Ocean*.

- 5 Oceans, 5 unique and beautifully distinct latrines.
- Each latrine door carries the Ocean Oasis and the type of latrine it is. *Arctic Ocean (Bidet)*, *Pacific Ocean (American)*, *Atlantic Ocean (Bidet)*, *Indian Ocean (American)*, *Southern Arctic Ocean (Bidet)*.
- Inside each latrine a person will encounter the Ocean specific influence. The Ocean Oasis is **quite large** in size. A quaint **chaise** is placed in one corner. A **personal sink** rising out of the floor is placed near center welcoming a floating "mirror" made of reflective **stained glass**. The stained

glasses warm back lighting cascades from behind, illuminating itself and the soft colored wall not too far in the distance. Depending upon the Ocean Oasis latrine, you will experience an American toilet or a bidet.

- *Natural gold travertine tiles stand steadfast as this room's flooring with shag rugs placed in every latrine, as well as in this rooms main space.*
- *A simply crafted round table rests at the center of these **5 Ocean Oasis Latrines** that surround.*
- *Framed Birth Flowers hang seamlessly upon one large wall, while the remaining walls carry large windows and french doors leading the adventurer out and upon the **Women's and Men's** terraced patio.*
- *Each terraced patio is graced by the presence of green plant life and flowered ambiance flowing up and over a floral arch; Full and breathtaking in its presence.*
- *Chaise lounges are protected by a wide overhang so one may rest and many may gather. Mini fridges filled with drink are readied.*

2nd Floor Bedrooms Suites

7 Continents 7 Doors 7 Rooms...

We step onto a wooden river that swiftly guides us toward 7 Doors and into 7 Continents, 7 Rooms.*

- North America - South America - Antarctica - Europe - Asia - Oceania - Africa

Though the direction of architecture per suite is not clear, what is clear is how each room with its private bathroom will be a *door* into 1 of 7 *Continents*. And within each *Continent* there will be a continual shifting of cultural design and expression. From furniture to diverse aesthetics and other goodies that only time will tell ...

Tourism has sky rocketed in the recent years but this by way of cruise ship or being flown in with permission from personal government. Two of the larger bases are known as *Villa Las Estrellas*(on King George Island) & *Esperanza*(in Hope Bay).

All of these precious and natural(even cultivated) details are sacred and valuable in their many forms ... and still, these are simple doors into what is thicker, into where they have come from.

I invite you to join me along a *trail*, in which *Everflow's* system of trails will find its rooting.

A *path* that would appear to have a starting point and an ending point.

But this *path* is more a continual adventure. A pulse, a heart beat felt as one travels along it. **A full circled pulse.**

As a ripple in a pond, this **full circled path pulsates outward**, expanding and expanding with every pulse. This truly is the path and direction of life.

A trail that seems to be straight and narrow, is also full circle and forever expanding. *We see the future when traveling upon this path.*

We see **Hope** ...

Hope is friend, is image. *Hope* is found in dream and is glimpse. Here is where the process and relationship of *Hope* becomes exciting!! Moving away from this idea that *Hope* is wishful thinking or waiting for what is *longed-for* or *desired* to happen ...

Body Love

Body Love is a space that is very dear to me ... very sacred and personal to each who will venture upon *Everflow*'s trail leading to it. This is the space where our physical bodies come into a fresh place of care and safety, awakening in us wonder and innocence. Our body becomes rightfully divided from all other parts of us so that true union may arise.

Here, there is an encountering of trusting One's *own* body, allowing movement to come, breath to come, peace to permeate and healing to manifest. Where a Person was deeply distracted by Another's behavior, actions or sounds, within this space an opportunity to honor One's self and allow Another to be, is realized. There is a challenge in this because our *problem* was never with Another, nor was it really with Ourselves either, but we were just awaiting our own self to awaken to self-love, Divine Love ...

This is a sacred place.

- Guided path leading to field.
- 1st stop, tiki-type shelter, stocked with water, towels, drink, etc.
- A request for quiet reflection along the remainder of path toward field.
- Archway to walk through - signage "*Body Love*".
- Manicured wide open grassy field (think golf course care).
- Warm lighting (solar powered) along path and along perimeter of open field, giving distinction between field and rest of property.

Where familiarity of yoga, tai-chi, dance, gymnastics and so on may arise, this space is cultivated and presented for One to *release familiarity* and embrace One's own body's desire, giving permission for your own body to move within awareness of present moment. This can look like anything. Silence is not required, sound may come, honor for self and Another will naturally flow and we'll grow in all, together.

- Soft focus, effortless in nature.
- Syncing up movement with breath or no breath.
- Allowing body, all limbs, to move freely (innocence is encountered in this space of raw and genuine being).
- Allowing sounds to come, as well as silence ... honor each upon One's own journey. There is a natural flow in this, *all diversity syncing up in union*.
- Feels like so many things, our bodies will naturally move. We give permission for them to do so, loving our bodies through it all.
- Emotion arises, healing arises, a waking happens...
- A revealing of what Body is will deepen as One delves deeper into releasing and trusting, loving and honoring.
- No one leading Another; come and go as drawn to do so; sprawl out or stay close ... and move ... or be still.

English Country Cottage

This will be a cottage upon the property that will be held for myself, close family/friends, and anyone else that I(we) are moved to offer it to.

- Three bedroom two bath *Cottage*.
- An extra vehicle for visitors to use.
- Two story
- Privacy; Cottage located on property where another entrance that is private will be available.
- Design to be discussed.

Weekly / Monthly Schedule & Details

As of right now, this is a projection of what I see, how the flow of organization will be expressed and upheld. I hold all loosely. As relationships develop, conversations will form more clearly my vision, changing and adjusting details.

- Though the property's perimeter will have a quaint fencing all around, there will be a code-entry gate. Not for security purposes but to honor each person who reserved their place to be onsite for the day/evening, or weekend. All accounted for, all honored.
 - **Friday, Saturday, Sunday** ~ Entire estate reserved for guests who will be staying in the 7 suites on the 2nd floor.
 - A person, couple, family or group will pay a set amount for these 3 full days and evenings (amount determined later).
 - A person, couple, family or group may leave anytime, but the entire 3 days will be paid for, and no new person, couple, family or group may reserve after the weekend begins. The entire estate is a place of honor, rest and opportunity for those who enter at the same time.
 - **Monday** ~ Entire estate rests (besides anyone abiding in the *Family Cottage*).
 - **Tuesday, Wednesday, Thursday** ~ Entire estate open for *daily / evening* engagements.
 - A person, couple, family or group will pay for daily/evening use, but there will be no set amount. In my conscience, it *is* important for a person to invest in their time here, but by One's own conscience will this happen. Anyone can come.
 - Suites will be open during the day, but will close by nightfall.
 - There will be a set number of people allowed on property. Each "person" (or gathering) will be given a code to enter through gate and onto property.
 - A person must reserve a space for their desired day, at least 10 days prior to the reserved day.
 - There will be a system in place for reserving, receiving daily code and payment for day/evening use.
- Codes will change per day per new arrivals. Maybe recycle codes.
 - New code received for weekend stay.
 - New code received for those reserving a space for daily/evening use.
- One weekend per month will be reserved for **Helping Hand Events - Friday thru Sunday**.
 - 1-2 years of pre-scheduled property usage by Events (**Helping Hand will provide co-host if desired by group, business or person**)
 - Events focused on cultivating wonder / creativity / innovation / stillness / fun.
 - I desire to bring in many groups, people, businesses who will pour into children, youth and all else.
 - Events varying in many degrees!
 - Event may utilize whatever is available on estate.

Mandy B, LLC

Everflow

Unique Boutique

Helping Hand

Mandy B, LLC is a business I started, focusing on selling my books and other products, but I've always known intuitively this was one movement meant to lead into the more. Mandy B is my author name. Everflow, a DBA of Mandy B, LLC.

I have recently (June 2023) ceased in operating as a business. I have simply settled into being *Friend*, and with this a more seamless approach to grasping and becoming *whole* has manifest, or been realized.

- *Everflow* is a place for a Person to venture into, experiencing the stillness and its unfolding impact that I have lived in these many years. From *journey* to *writings* to *vision* cultivated, there is now *Land*.
- *Unique Boutique* was an online store selling my personal products as well as *Belle's Blankets*, but is now a *Friendship* rather than a business. My way of creating *spaces* for Another to come face to face with Life, is a gift. From my *Writings*, to *Photography*, to every *Art Piece* and *Gathering*. And from your own *Conscience* and *Honor* toward Myself and *Everflow*, will you be moved. This *Unique Boutique* will also find grounding within *Everflow*, the *Land*.
- *Helping Hand* is an opportunity, a *Friend* who brings people together. Bringing *Us* together. Our motivation is to create spaces through events geared toward a People's unique vision and desire. Within these events we will create space so each person may know **fun in support, innovation through exploring, refining of skills and empowerment** to move further in personal desire. As we continue to cultivate *Friendship*, I trust that You too will support and empower our vision for *Everflow*.
- **What is coming in the future for Mandy B** - *A new line of books rippling out in all directions*. From children's books to cook books to contact points for meditation, to the continuing of deepening memoirs the further in Life I move and so wake up!

Procuring/Receiving OF Funds/Resources FOR Everflow (House and Land and Us)

- *Friendships* - Gift givers ... purely gifts, people to people ... this cultivated through mutual support in peace.

Pay/financial structure as presently aware of...

Helping Hand funds that are gifted for support of *Everflow*, **Resources** gifted for support of *Everflow*
A SAVINGS ACCOUNT WILL BE ESTABLISHED WITH MYSELF AND 2 PEOPLE, ACTING AS SHARED ACCOUNT HOLDER.

All funds/resources gifted to **Helping Hand** **FOR** **Helping Hand** will only go to **Helping Hand Events**.

We will hold all **Events** on private land, homes, community parks and businesses that offer their space as a gift in helping *Everflow* manifest. No strings attached. Once *Everflow* is built, these events will be held on the Land that is Everflow.

Once *Everflow* is up and running, all funds will go as such:

- Taxes and dues to appropriate places, Dept. of Rev., etc.

Remaining funds will go 3 ways:

- Expanding of *Everflow*,
- Salaries (?)
- Funds to be a bridge for those waking in *Stillness* ... a relief of conflict given monthly as a gift.

When a person is moving toward the life of *stillness*, at times, there are moments where bills, house payments, food and fun are not the primary focus - but still, a great conflict to care for such matters are within. Many will wrestle through these moments of conflict, and this is a stretching and with great purpose ... but, sometimes the movement is to find a *Helping Hand* that brings relief during these times so we may focus primarily on this journey of *Stillness*, growing within.

Funds will be allocated for such times as these. There is no reasonable formula, but through discernment found in Love **FOR** Life **FOR** those seeking to find this financial respite.

Hope

Hope has a beginning.

At first glimpse *Hope's* substance appears to be from another splice of time and space. Another place.

Now, to peer into *Hope* is to peer into a future ... by seeing how *it* IS One's now, entrusting Oneself to a formulation of timing, naturally unfolding. By trusting your present moment, it strengthens and gets you through and into your next one.

Through the window of this single eye which is Life and gaze into *Hope*, a person sees what is real and substantial. What is Life.

In this beginning gaze few details are known, but as this relational road is traveled *with Hope*, a drawing near brings about greater detail when suddenly, our future has always been our present.

True *Hope* breathes into Us, strengthening our foundation which is *rest, wonder* and *joy*.

Real *Hope* moves through us much like a bed of water flows as a river. This thickens our whole being. Our body feels *Hope* by being in it, our soul thickens as *Hope* that is of Spirit, transfigures the soul. *Hope* brings about the process of glorification Body Soul Spirit and life manifests through every detail.

NOW ...

Let us peer through the window of Life and into *Hope* found in each of *Everflow's* spaces.

✧✧ *The Foyer* through her window and into *Hope*

A person in their new beginnings walking along the path and up the steps of *Everflow*, will come as a fresh One. A baby who was born in a state of compartmentalization, readied for union with self ... with Life. A compartmentalized self has kept each of us safe in our perceiving of being

separated from Life in all of its brilliant facets. *Now* we see *Hope* through union with self as we move through the welcoming family-doors and into *Everflow*, into *Home*. It becomes evident that it is possible to experience the process of union. The process of being glorified, transfigured in all ways, *now!* The *Hope* that comes when awareness wakes us to the reality that all is a sweet fresh beginning, a seed blossoming and a door leading us deeper in. Pressure fizzles out much like a balloon loosing its air. And peace as our foundation is strengthened *as we walk through the doors of Everflow*.

✧✧ *Table Talk* through her window and into *Hope*

Where tunnel vision paved our way into *Everflow*, a softening of seeing God, oneself and so another, quickens, and our seeing becomes panoramic. The weight upon our chest, the algorithm in our steps, the structures formed from fixed reasoning, fade as a wisp of air in the morning Light. Love, true love, is experienced as the warmest blanket and most cozy womb while I rest upon a couch, listen to another share, close my eyes or open them wider ... There is a true continuing of union developed here and now the relationships I have always longed for is realized. It is true how *Hope* shows me there is relationship established in friendship where need is no where to be seen. How friendship communes from within one another's spirit, and to know one another is to see the gold shine bright.

✧✧ *Taste of Soul* through his window and into *Hope*

How pure and simple a glimpse of *Hope* is seen in *Taste of Soul*. To play, experience, investigate and explore all tastes, all avenues, is to live from a place where comparing one moment to another moment cannot be seen. Suddenly, a weird taste becomes a new experience where opinion is so far from grasping, a person simply lives in the experience unobstructed. Where celebration resounds over mistakes until all there is, is celebration. Where this room *Taste of Soul* shines brighter and brighter as we shine brighter and brighter, free and free.

✧✧ *Unique Boutique* through her window and into *Hope*

This space, *Unique Boutique*, carries one of the clearest glimpses of *Hope* though it is not so easily seen - for a mind of intellect must be laid to rest in order to see. Every piece of writing and expression offers a remembrance rather than a teaching. A recollection rather than an explanation. An opportunity into fresh experience rather than a fixed point of static. The only Teacher we truly have is our Maker, and in this, a teaching becomes a living breathing experience of love, adventure, exploration and wonder - a waking up. The truest responsibility in Life is to joy ... here is where One will see *Hope* found in *Unique Boutique*.

✦✦ *Everflow* through her window and into *Hope*

So very specific to sound, dance and movement, *Everflow's* space naturally ignites *Hope* in the dreamer and dancer. Sounds move through our body, moving through the atmosphere, carrying a personal distinction for each and every one of us. *Hope* shows up in waves of union. Free flow and a natural rhythm discovered in our very make-up. Once we step into the free flow movement in *Hope* she draws us higher into reality. We begin to be thickened in our body and transcend time and space. We suddenly become aware of other places in the heavens where we are dancing and moving freely. Aromas fill our senses, and sounds in other dimensions vibrate within us. Here we become aware that what we thought was outside of us, has actually been within us all along.

✦✦ *Purely* through her window and into *Hope*

Purely is a unique space in that it is not so much about bettering oneself as a sketch artist or painter or any other title associated with “artist.” This space where *Hope* is experienced, is done so by solidifying a foundation of wonder and delight. Solidifying a foundation of living presently in our own lane while celebrating the expression of another. *Hope* strips us of the illusion of having mastery over something, not only the title of artist, and awakens us as continual expanders in all facets of art, of life. *Hope* strips us of identifying with titles and roles in a fixed form and invites us into the plane of being in everything as one who is content, seeing from a multi-dimensional set of eyes. A color is more than a color carrying a title. A line is more than a line, a stroke more than a stroke. *Hope* ignites our adventurous ways that we would experience every moment in *Purely* as though it is our first fresh one. This room becomes a sweet friend to us.

✦✦ *Innovariable* through her window and into *Hope*

Every person who ventures into the realm of discovery, innovation and development longs for the furtherance of what is beyond One's ability to comprehend with current intellect or present tools available. This is when *Hope* shows up in this space *Innovariable* and turns the entire table over, knocking all pieces to the ground. *For what has been was merely a taste of what IS and so what can be.* *Hope* takes the entrepreneur, innovator, scientist and developer down an avenue where One must begin in quiet. Quiet of all that One has ever known so that this One may begin in the beginning, where true discovery and innovation is birthed through Oneness. This is knowing the thing from within it, for you are one with it. All manner of expression bursts from here and there is more than a furtherance of humanity, but a fully transfigured human. This happens in seed movements and is purely relational.

✧✧ *Oasis Room* through her window and into *Hope*

There is a tale of a fountain of youth. This tale is said to be mythical rather than mystical. There is also a belief that One is emptied by life, by serving, by working, by anything that takes our time and energy, and so One must vacation or retreat in order to recenter, be filled up or refreshed once again. The cycle then continues until One passes into physical death, and from there, there are innumerable opinions as to what happens next. I share a *Hope* rather than an opinion. There is a Living Water that flows through a human. It feels as a trickle in our beginning, but as stillness washes over us from within, this Living water thickens us and an awareness of being this living water increases. We begin to see how this fountain of youth has always been within, readied to be activated through our personal encounter with it, with I AM. As we are thickened in our eternal Oasis we see how it matters not where we go or whom we are with, for nothing and no one can drain us of our Life, for it is our Being. Nothing shall separate Life from Life.

✧✧ *Stillness Room* through her window and into *Hope*

The greatest *Hope* to be seen is here. The reason there is stillness afforded to us is because of what stillness is, or rather *who* stillness is. As complex as this living stillness is, in its simplicity there is relationship. Personal and sacred. There is friendship. Friendship with the One who has always been and will always be. Friendship with the One who becomes perfect parent and every other position of significance for us. This *come near to me as I come near to you* is a face to face encounter where we are drawn in closer and closer to one another ... there is no end in this. And in this, we discover our forever expansion.

✧✧ *Full Bloom* through his window and into *Hope*

Within *Full Bloom* room *Hope* is grasped by its presence found in adversity. As images and memory of adversity arises, *Hope* makes straight the way, showing us how true Love known as Life is formed here. Awakened here. A way revealing how adversity levels the plane and neutrality found in contentment arises. This seed of I AM discovered in everything; every thought, image and emotion is seen, and so *everything* becomes a gift. Suddenly adversity is known through a fresh understanding and we are more alive than we knew possible.

✧✧ *Bathrooms* through their window and into *Hope*

A royal path purposed to awaken regality in Man and Woman, guides us into these sacred latrines, or bathrooms, and *Hope* is bursting at the seams along this path and in this space. To be male, while caring female in your blood is exceptional. To be female while carrying male in your blood is outstanding. To experience through the pulse of I AM, in whom all female and male found their distinction, is absolutely fantastic!

Then to step into a space that many rush through or use for one or two purposes, is to pause and rest. To utilize this sacred and private area for deeper purposes. Privacy reveals being hidden but not vulnerable. Privacy provides opportunity to engage I AM within the heavenly realms unlike any other space upon *Everflow*. Privacy acquaints us with one another in fresh ways where there are no walls and no boundaries, but simple interactions and peace. *Hope* is bursting at their seams in this space emanating water.

✧✧ *Bedroom Suites* through this window and into *Hope*

Reality is continually shifting and changing, while Love remains the constant absolute. Reality - *thick/full reality* - also uses the less real - *thinner reality* - as doors. All expressions, forms, ideas, cultural distinctions are but mere doors for a person to enter through and so be thickened within Reality, within I AM - *Heaven*. These *Bedroom Suites* in their cultural distinctions found in design and expression is the *Hope* found IN door that each would engage what is new, different and fresh. These rooms will continually shift and change for this is reality, that we would be free of fixed form and familiarity, thriving in fresh awareness continually deepening.

✧✧ *Trails* through her window and into *Hope*

It seems to me one of the greatest gifts *Hope* awakens upon this *Everflow trail system* is how Life is an eternal encircling expanding way. Linear, start to finish, birth to death, fades along these lite-up trails ... leading all around and through *Everflow*.

✧✧ *Tree House Perched* through their window and into *Hope*

Wonder, adventure and exploration is a heightened experience found in *Hope* atop *Everflow's Tree House Perched*. All soul-ages and all physical types find themselves entering into their own storybook life. The foundation of learning within Reality - within I AM, is a foundation of wonder, adventure and exploration. Many will find themselves waking up in their beginnings as a child. Many will experience the deepening of youth within their soul that wisdom may thrive unabated. And bodies will release spirits to soar, untethered to time and space, while caring for all from within. This is a special place where *Hope* loves to be known.

✧✧ *Pavilion* through his window and into *Hope*

For those of us who still hold fast to *needing* something in order to know life wholly - *it is true that I AM is IN all and can be seen through all* - *Pavilion* shares this *Hope* that even I may find everlasting life. Whether I take medicine, meet with a counselor, hook my body up to a machine, I may do so in freedom, trusting that these may be a *need* for me now, but they too are gifts taking me deeper into wholeness where I have no need. Whether I am an organization utilizing *Everflow's Pavilion* for an event or find myself during a day trip, utilizing NeurOptimal to quiet my

thoughts and pave new pathways within my nervous system, I will experience a new stepping stone awakening life within me. I will uniquely see this through *Hope's* gaze. And I will know that I am already free.

✧✧ *Body Love* through her window and into *Hope*

Oh my goodness, our shining friend *Hope* is exceptionally opulent in this space *Body Love*. For it is our bodies that are key to everything moving forward and deeper in Life. Mystery tends not to explain itself and wisdom is always inviting us in through our nonverbal experiences, and so I will allow *Hope* to speak for herself when you enter upon *Everflow's* land that is *Body Love*. Come anticipating pure, simple presence with self, with I AM and everyone who is presently with you, while distinctly alone.
