

**Collin Dunn**

General Manager at Ranger Steel Erectors, Inc

Collin was a client of (Lee's) Pioneer Steel Services, Inc.

Lee was a pleasure to work with. I reluctantly contacted Lee, because of the experiences I have had in the past. I have hired two different consultants dealing with our AISC Certification, both of which fell way short providing the tools and expertise they claimed to be selling. Lee on the other hand provided more than I thought I was paying for. You will not just be sold a book with your Letterhead. You will have a customized Quality Program that can easily be changed, material added, or material deleted. Lee spent an entire week at our office customizing this program, so it works for us. This is what I have been working for years to have. To say I am pleased is an understatement!
