

We couldn't be more pleased with Pioneer's assistance on revamping our AISC program and getting us through the audit.

Under an EXTREMELY tight time frame, Lee reviewed and essentially rewrote our Quality Management System and assisted us in implementing the new system to fully comply with the new standard. He was always accessible and easy to get hold of for all of our concerns and questions. His experience and input was invaluable throughout the process from start to finish. He was even there during and after the audit to help. I recommend him highly for any of your AISC needs. A true AISC professional.

John M. Hesseltine, Senior CWI

Project Manager / Senior CWI at Metropolitan Steel Erectors
