## Single Needle Walking Foot Machine

### Mauser Spezial MH2645-170242-33

The ergonomic equipment and the sewing parameters of the machine class MH2645-170242-33 meet the highest demands.

The foot lift of up to 20mm allows effortless insertion of even voluminous material. The narrow sewing head with integrated LED light allows a perfect view of the sewing material at any time.

The stroke height of the sewing feet is easily adjustable via a rotary dial. The standard quick stroke adjustment allows quick switching from standard stroke to high stroke and back by means of a knee lever. The sewing material can still be guided.

Needle threads up to Nm10/3 (Tex300) can be processed, which also allows decorative seams with thick threads and a stitch length of up to 9mm. With a variety of different sewing components, the machine is a versatile tool in your day to day business.

With the optional thread nipper you will have a clean seam start with both threads pulled to the bottom side of the sewing goods.

**The MH2645-170242-33 is a workhorse for a wide range of join sewing operations, especially in the upholstery, automotive and leather goods industry**

With the integrated 750W direct drive you can handle all kinds of sewing operations, while the integrated control panel allows easy access to the main sewing parameters.

The dial allows you to set your sewing foot stroke for your common sewing operation and benefit from maximum sewing speed

Benefit from the extra large XXL sewing hook The 32mm bobbin will keep your machine going with less down time for bobbin changes.
