

# RUN, RIDE, WORKOUT... ROLL...REPEAT.

Use the QuattroPro Massager® for improved performance and faster recovery in all your athletic pursuits.

Athletes demand a lot from their muscles. The QuattroPro Massager® is designed to give those muscles the TLC they need to warm up and recover better and faster.

The QuattroPro Massager® is a clinical-strength massage tool designed for home and on-location use. The easy-to-configure, repositionable and heat-able wheels feature patented Dig Point Technology® that allows effective muscle penetration into trigger points and tight muscle areas, providing maximum tension relief and improved muscle health.

Developed by Dr. Marc Rosenberg, D.C. to help his patients needing to address hyperirritable spots in the fascia surrounding the skeletal muscle, the QuattroPro Massager® is designed to penetrate deep into muscles to rid them of knots and tightness, which can eventually cause injury. The tool is designed for use by athletes and masso-therapists to aid in myofascial release.

## FEATURES:

- Repositionable wheels to target hard-to-reach muscle areas
- Heat-able wheels to help relax tension points for improved myofascial release
- Easy to hold, triple-grip handle
- Go-with-you everywhere and anywhere design
- Dig Point Technology® to target trigger points and encourage fascia release
- One year limited warranty
- Designed in the USA

## BENEFITS:

- QuattroPro Massage Keeps Muscles Healthy and Running!
- Warms up muscles for pre-run and injury prevention
- Reduces DOMS (delayed onset muscle soreness)
- Removes lactic acid build up to aid in muscle recovery
- Take it anywhere muscle massage may be needed
- Corrects muscle imbalances before they happen
- Easy to use on yourself or your favorite athlete

- 4 Pack Master: 10"H x 10"W x 12"D
- Instructions included inside package
- UPC#8 6070500020 6
- Model #DRM-QP4-1M

...it was effective in removing knots, massaging trigger points and soothing my achy muscles. I do think this is a great product. I will continue to use this gem on my sore muscles. I'm already thinking I may need a second one to keep exclusively in the RV with me while traveling to races.

I am totally in love. This massager is not only effective to whatever area you desire, it is also portable, which is a plus in my book. You can use this for any area of your body and the wheels can be maneuvered to be closer together or further apart depending on the need.

I was very happy with this new tool. It's worth pointing out that it works equally well on hamstrings, thighs and the bottoms of your feet, though calves remain my primary concern. While using the massager when it's cool felt okay and hit all the right spots, trying it out in "hot mode" brought the experience to a whole new level. OMG THIS THING FELT AMAZING!!!
