- Extend and implement our APIs.
- Educating team about subtleties & unique capabilities of Android and iPhone and leveraging them when building new features.
- If remote, travel to San Antonio, Texas headquarters, as needed.

Position Qualifications

- Bachelor's degree (or higher) preferred in computer science, related field, or equivalent practical experience.
- 5+ years of PHP development experience and at least 18 months of Android and iPhone app development experience, with direct front-end experience.
- Good sense of usability and product for mobile apps.
- Strong sense of ownership, ability to work independently, and proven track record of driving products.
- Shipped consumer Android and iPhone apps, ideally available on Google Play and App Store.
- Excellent JavaScript skills.
- Experience with web design – HTML/CSS.
- Strong experience with relational and non-relational databases.
- Proficiency in interaction with a wide variety of APIs in PHP.
- Experience with Yii PHP Framework, with excellent PHP MVC Framework knowledge.

Requirements

- Personal interest in and commitment to LGBTQ+ equality.

Our Company

QueerBFF is a **social networking app** with the goal of connecting **LGBTQ+ (Lesbian, Gay, Bisexual, Transgender, and Queer)** people and our allies through a medium that is specifically **devoted to finding friendship, rather than sexual encounters or dates**.

We strongly encourage people of color, transgender, and non-binary individuals to apply. Gay BFF, LLC is an equal opportunity employer and welcomes everyone, including non-LGBTQ+ people, to join our team.
