

THE MARK OF THE BEAST

REV 15

2 And I saw as it were a sea of glass mingled with fire: and them that had gotten the victory over the beast, and over his image, and over his mark, *and* over the number of his name, stand on the sea of glass, having the harps of YHWH.

The mark of the beast is multifaceted. The beast, his image, his mark and his number. The number is an identification number in your skin. The first two are easy to identify, if you worship the beast or his image. The fourth component which is the mark of the beast. To understand the mark of the beast you have to understand the mark of YHWH.

DUE 06

2 That thou mightest fear YHWH thy Elohim, to keep all his statutes and his commandments, which I command thee, thou, and thy son, and thy son's son, all the days of thy life; and that thy days may be prolonged.

8 And thou shalt bind them for a sign upon thine hand, and they shall be as frontlets between thine eyes.

YHWH puts His mark on you if you are in Covenant. The covenant is a blood covenant. Eat no blood., The bloody circumcision, The blood of the passover lamb., The blood of the daily sacrifices, The blood of Yeshua Hamashiach. The mark of the beast is a blood covenant as well. Anything that alters your DNA is the mark of the beast. Alters your blood. Engineered gene modification is modifying the human race. No longer in the image of YHWH who made us. Corrupted in form. Nanotechnology is how genetically modified organisms are created. This technology will break the blood covenant with YHWH. It can be done in several different ways. The technology is very sophisticated. The technology is microscopic. They can make a patch like a band aid and alter your DNA very easily. It can be delivered in an injection or pill. I did some research and found an example of how it can work. The experiment was to alter the DNA of brain cancer and cure brain cancer. They took a nasal swab with nanofibers, they added nanotubes that contained the technology to alter the DNA of cancer in the brain. They wanted their poison to go deep into the brain so they used a swab and placed the experiment in the back of the nose. The DNA altering technology would penetrate deep into the brain and change the DNA. If it goes in the nose and deep into the brain to alter DNA it has two signs of the mark of the beast. It is in the forehead and it changes the DNA, it changes the blood. I have seen reports that the nanofiber swabs are loaded with nanotubes and nanochips. The manufacturers of these nanochips claim they are GPS enabled and they work off the cell towers. The makers claim these chips can give you body temperature and tell them how fast you are traveling. That is like the number of the beast. Track and trace and monitor. The nasal swabs can send nanotechnology deep into the brain and implant a tracking chip at the same time. I know somebody who had a swab and two months later she is a different person. She was born again now she has a demon. This technology is microscopic and very dangerous. Nanotechnology changes DNA and is the mark of the beast. A blood covenant with satan. The plague of the beast requires the mark of the beast. The implementation of the mark of the beast has begun. Depopulation and total mind control is the agenda. The fallen angels come to destroy mankind with the mark of the beast.
