## DIGITAL CONSULTING SERVICES TAILORED TO YOUR SPECIFIC NEEDS

Ohia Technology provides high-impact consulting support to address a problem or opportunity. Whether it's rapidly prototyping an idea, identifying opportunities to improve the health of your project, or evaluating the suitability of an open-source software alternative, our micro-consulting services provide you with on-demand access to our expertise.

We are a woman-owned, native Hawaiian digital consulting group based in Honolulu, Hawaii. We're a remote-friendly team working with clients in Honolulu, West Virginia, Saudi Arabia, and the United Arab Emirates.

## DIGITAL EXPERTISE

- Rapid Prototyping
- Software Engineering
- Cloud Computing
- Design/Product Workshops
- Agile Delivery
- Open-Source Software
- Process Improvement

## WAYS WE CAN HELP YOU

Micro consulting is a way to problem-solve with vigor, providing experts who can supplement, even level up, a team's existing skills and knowledge base with decisive intensity.

However bold the idea or complex the problem, we work with you to deliver results in weeks, not years.

## HOW WE'VE HELPED OTHERS

- Strategized and executed digital transformation for 200-year-old historical church
- Prototyped an API operational tool for an overseas franchise
- Consulted various Japanese companies on how to enter and create a US market strategy.
