

# About Us

ESTABLISHED IN 1993

Experts in Financial, Distribution, & Manufacturing Software  
supplying high-end product & services for 3 decades.

## Our Process

By working closely with our clients from quoting stage, we perform a thorough needs analysis to guarantee the most suitable software system for your business. Our approach is tailor made from supply and installation to support & maintenance. We stay connected all the way to ensure that we are aligned with the end-goal.

Once we have finished the initial installation of our client's recommended product, we perform meticulous checks, offer training and 'on call' support to map out a smooth transition and activate a seamless implementation
