

America the Brave - Brutal Attacks Against Elderly “Trend” Street War, Guerrilla War, Asymmetrical, Hybrid and Proxy

“What surprised her the most was the lack of people willing to help her.”

- **Street warfare** — fighting or organized violence occurring in urban streets or neighborhoods.
- **Guerrilla warfare** — irregular forces using tactics such as ambushes, raids, and hit-and-run attacks.
- **Asymmetric warfare** — conflict between opponents with substantially different capabilities, where the weaker side uses unconventional advantages.
- **Hybrid warfare** — a combination of conventional and unconventional methods, potentially including cyber operations, disinformation, economic pressure, and irregular violence.
- **Proxy warfare** — one party uses or supports another group to pursue its objectives indirectly.

I can tell you exactly what my reaction would be! Stand up, hold them accountable, make sure they face the repercussions of their actions, and see to it that they end up where they belong, JAIL. That’s the Santa way. It’s a war out there. Don’t let US down! Stay America the brave!
