The Union of Saints Position Statement – Domestic Military Deployments

The Union of Saints supports the deployment of National Guard troops to locations such as Washington, D.C., and recognizes the United States military as a powerful and positive force within our cities. We stand behind the U.S. military as it responds to domestic challenges, while also acknowledging the many ways in which service members contribute to the public good beyond enforcement roles.

Across the nation's capital, National Guard members have worked in coordination with local and federal authorities to reinforce public safety, assist law enforcement, and maintain public order. These efforts reflect the Guard's dual mission of serving both the nation overseas and communities at home in times of need.

Importantly, the role of the military extends beyond security. Service members frequently engage in community-oriented work, including volunteerism, public assistance, and community improvement initiatives. In Washington, D.C., for example, Guard units have participated in beautification efforts, cleanup projects, and direct engagement with residents, demonstrating a commitment to protection, and to stewardship and service.

The Union of Saints affirms its support for these efforts and recognizes the sacrifice, and often unseen contributions of those who serve. We stand with the U.S. military in times of conflict, and in their ongoing mission to strengthen and support the communities they are sworn to protect.

Thank you!! Keep up the great work!
