

Call them out for Fourth Generational Warfare and Modern Holocaust. Let them know exactly what they are contributing too. Don't sugar it for them, they are foaming at the mouth to hurt the American people. This party only responds to a mirrored response. They need to hear the whole black, evil and dark truth of who they are, what they are participating in and the evils they are contributing too. Don't sugar it. Tell them they are a foreign and civil war front, who is actively participating in modern colonization and genocide, and committing crimes against humanity. Tell them exactly who they are. What they have stolen, and why we aren't going to tolerate it. Hold them accountable, place them in jail, send them packing, really, "wake them up," by giving them a dose of the same reality they gave us.
