

# Support for American Communities During Hostile Foreign Takeover

We support McKinney's efforts to reclaim its community from hostile religious and foreign takeover. Islam has shown its ugly face as a threat to the United States, its heritage, culture, and spirit. The United States has made it clear that foreign enclaves that become territorial and attempt to take over American culture are active fourth-generation enemies.

A death threat is not an expression of resistance, a "tool for change," mere dissent, or a political "rallying cry." It is a terroristic threat, a direct threat of violence, and a threat of war. All threats must be treated accordingly.

In response, we support lawful immigration enforcement with individualized due process, including the removal of noncitizens who receive final removal orders and voluntary return and reintegration assistance. We also support the prosecution of credible death threats, terrorism, coercion, and political violence, as well as investigations into unlawful foreign funding, foreign-agent activity, and organized interference.

American communities must be protected through the enforcement of neutral zoning, public-safety, fraud, and American-native protection laws. American elections must also be protected from unlawful foreign participation. Stronger community integration, English-language education, and constitutional education should be encouraged to preserve national unity and respect for American laws and institutions.

We support the protection of American culture and religious freedom while rejecting intimidation, extremism, and foreign territorial control. The safety, security, employment, housing, and public resources of American citizens must remain a national priority. Any remigration policy should operate lawfully, humanely, and through individual determinations.
