HATE SYMBOL

Diversity = White Genocide

All the symbols depicted in the hate symbols database must be evaluated in the context in which they appear. Few symbols represent just one idea or are used exclusively by one group. For example, 100% is often used as an amount or an expression and it is also used by some white supremacists as shorthand for "100% white." Similarly, other symbols in this database may be significant to people who are not extreme or racist. The descriptions here point out significant multiple meanings but may not be able to relay every possible meaning of a particular symbol.

Who We Are

ADL is the leading anti-hate organization in the world. Founded in 1913 to protect the Jewish people, ADL works to stop the defamation of the Jewish people and secure justice and fair treatment to all. In the face of rising antisemitism and extremism, we protect, advocate, and educate, through a mix of programs and services using the latest innovations and technology, and seek to create a world without hate.

Because our nation fails to protect its White people, I truly believe that White Americans are at risk of genocide. At this time in history, I believe we are actively experiencing it. The data appears to reflect this across the board, and it is frightening for those who are American and witnessing these rapid changes since the pandemic.

Worse, diversity initiatives are in many cases, completely pushing American whites out of the picture and even celebrating this. As if American whites are a people to be conquered, rather than individuals deserving of rights and compassion. Essentially, the world is being lifted up while Americans are being pushed down within their own country. It is very sad.

While all people of course, should be loved and celebrated, if all other groups are afforded protections while American whites are not, and are even vilified when they speak up for themselves, then this must be addressed. The language must change.

I do not think it is acceptable that some groups feel justified in advocating for themselves while also promoting ideas that harm American whites. These hypocrisies have led me to take a firm stance of self-protection, rather than continuing to support spaces where entitlement thrive and what I would describe as “social justice space supremacy” have surpassed humility and reality.

All humans suffer, and it is especially painful when your home nation is rapidly changing into something unfamiliar, worse, our native people are harmed and enslaved along the way. Humanity does not discriminate. History should have taught us this.

Yet many Americans are targeted at this time, including by individuals from nations with which the U.S. is currently experiencing war. This is the truth.

Still, America remains beautiful, and Americans are still here. Even if overshadowed by politics, we continue to stand strong and strive for the greater good of our country.
