

Modern Confederacy (Anti-US Clan Formations)

They may not be “holding Confederate flags,” yet they carry the same symbology.

X – X Whites

Star – X US

They have taken “historical injustices” and “flipped” them, thinking that they themselves were justified.

They Vector the USA:

1.

- Keep Whites down.
- Open borders.

2.

- Harm Whites.
- Lift others.

3.

- Fight Whites.
- Embrace others.

4.

- Take from Whites.
- Give to others.

5.

- Negative propaganda against Whites.
- Positive propaganda for others.

6.

- Treat Whites differently.
- Treat others the same.

7.

- Commit war crimes against Whites.
- Enable war crimes and criminals.

8.

- Commit acts of slavery.
- Gaslight and blame historical slavery (1600s–1800s).

9.

- Ignore atrocities against Whites.
- Glorify atrocities against themselves.

10.

- Take territory from Whites: claim gentrification, opportunity, movement, diversity.
- Ignore White suffering, homelessness, veterans, and encampments.

11.

- Create environments of hardship so severe against Whites that it amounts to warfare (BLM \$2B).
- Claim their lives are harder, matter more, and are more difficult and severe.

12.

- Claim Whites are the majority, promote globalism, and promote anti-heritage/nativism.
- Are the global majority, seeking opportunities for mass migration.

13.

- Isolate one race, White Americans.
- Claim they are the only race classes (including foreigners) that endure racism.

The Xs and Stars continue. It is a continuum of abuse and enduring racism, the worst of racial conflict and war.

The conclusion is that humanity, compassion, mutual respect, honorable friendship, and love for our home, the USA, were all we *needed to succeed together, as one nation ~ under God.*

Yet instead, we move forward, enduring a global war on good people, White Americans, on Natives, children, women, all, and, as a result, we are militarizing. Such is the nature of the foreign and domestic confederacy that stands against a healthy American citizenry. Race war, clans, crimewar, and radical activists that harm the USA have never achieved peace and are only labeled and portrayed as they rightfully earned and deserved. All of these organizations “worked so hard” for “equality,” yet what they achieved was a “genocide” and a “war.”

Now we witness a foreign and domestic, modern, mass anti-American confederacy, fighting our military.

I can tell you what team I am rooting for, our home sweet home, USA and the good people who belong to it. Never the estranged, cruel and war-hungry terrorist or the violent fronts they create.

Say no to the modern confederacy.

Say yes to the USA.
