Anyone with wit can do the math.

This is the “anti-statist clan” that is attacking our public servants and military.

They are not dumb. They know exactly what they are doing, and they are doing it anyway.

They are scum. They attack healthy, normal citizens simply because they can, and they do.

They are “activists” a “clan” who think they can get away with discrimination and the dehumanization of our people, veterans, and those in service.

They are literally the beacon of anti-Americanism.

Every time the word “Nazi” slips out and is aimed at our people or our service members, these people should have their bags packed and be shown the door.

I mean immediately. They are no longer welcome. They turned their backs on Americans. They are not good people, they have lost the plot, and they are no longer welcome.

It is NEVER okay to target people. It is NEVER okay to target ANYONE — not veterans, police, government workers, or anyone else. Yet this is what they have done. They have joined the enemy, and they have created a ring of fire around innocent people, now their victims. They know exactly what they are doing, yet they harm people anyway.

Not welcome. You turned your backs on us, and our energy is no longer with you. Please hear me: you have committed acts of treason against the United States and our citizenry.

You are no longer welcome.
