

Citizen App Becomes Platform For Anti-White Hate Speech

BlamesovJF+ War, Civil Conflict, Fourth Generational Warfare, Foreign and Domestic War

Citizen App was developed as a safety application for citizens to report safety incidents and quickly find information regarding any safety issues. Unfortunately, it has spiraled into a platform where anonymous members may use hate speech, racism, and targeted political violence to hurt others. It makes the world feel less safe when reading many of their comments. They may not be American, they may be, and a large portion may be part of the same movement that actively targets Americans, particularly White Americans who are Republican (American Whites who stand up for themselves during historical racial conflict).
