

US Spending Is Out of Control & Out of Focus

The average American family spends **\$231,694** on food over the course of a lifetime. According to our calculation, **\$0.333 billion** would provide **\$1 million** in food to every American. That is all it would take. Yet. The U.S. spent **\$85.8 billion** in foreign aid, often to places and people who really could not give a darn about the American people.

Our culture is rampant with fraud, waste, and abuse. We are paying the salaries of people who are actively fighting us, dehumanizing us, and attempting to degrade our culture and our citizens. So many have lied, betrayed and exploited the American people.

Politicians have allowed modern "ghettos" to prosper. They have sprayed us with modern nerve-killing gas, "Zyklon-B," they call PermaSease 4-4. They have supported Cold War and mass instrumentalized migration, including cartels, foreign enemies, and traffickers. They have afforded American tax dollars to foreign political operatives against our conscience and our will. They have robbed and stolen from our political elections and funneled illicit funds to themselves, often through fraud and other unlawful means.

They have attacked us and our public servants. They have placed us among people who claim they should attack us from every possible angle. Terrorism, slavery and crime are everywhere. The politics of this age are truly devastating to the American people. **We have had to fight every step of the way.** Is that fair to the USA? We need Americans in office who truly care about the American people. This hostile foreign and domestic takeover is not working for us. **We are constantly in danger mode.** Please support measures that bring our country back down to earth. End the atrocity that is mass exploitation of American tax dollars and please place the money back where it belongs, with the American people who deserve so much better.

Homeless camp on the east side of Oracle Road near the intersection of Oracle Road and Roller Coaster.
