India Propaganda Wars on YouTube

Often, racially fueled tensions supportive of “Ultra Left” politics. Information war against White Americans. Portrays White Americans as the common “racist” caricature, while glorifying the “Black victim.” Never faces reality, only perpetuates ideology. Alters perception of those who watch. Turns normal American protectionism into racism against “Indians.” Very Hindu-centric, rather than American. Overall harmful and biased against American people.

The Truth:

Americans reported losing $12.5 billion to fraud in 2024 alone.

Of all tech-support scams, India accounted for 44% of reports.

Preliminary country comparison

Category	Country or finding supported by available evidence
Foreign espionage	China is a leading U.S. counterintelligence concern, alongside Russia, Iran, North Korea, and other foreign intelligence services.  FBI +1
Consumer fraud	India is frequently identified as a source of cross-border tech-support scams reported by Americans. FTC Federal Trade Commission
Immigration to the U.S.	Mexico is the largest country of origin for the U.S. immigrant population in 2024, followed by India and China.  Migration Policy Institute
Cybersecurity threats	China is identified in the 2026 U.S. intelligence assessment as the most active and persistent state cyber threat to U.S. networks, with Russia also posing a major threat.  ODNI
