

Criminal Politicians Supporting WW3 Level Abuses Against American People

Mass Instrumental Population/Demographic/Culture Changes, Trafficking, Activist/Political Violence, Foreign Cartel Aid, Neglect, Support

After everything Americans have been through, it is unacceptable for politicians to continue gaslighting the American people or shifting blame onto Republicans for opposing undocumented immigration.

Americans have the right to demand secure borders, lawful immigration, public safety, and accountability from the people elected to represent them. When political leaders knowingly support policies that are causing serious and widespread harm to Americans, they must be held accountable.

There should be no political immunity from accountability. If evidence demonstrates that elected officials knowingly abused their authority, violated the law, facilitated unlawful conduct, or deliberately placed Americans or public servants in serious danger, those actions should be prosecuted to the fullest extent of the law.

Politicians who abuse their office should face the consequences, including impeachment, removal from office, civil or criminal penalties and any other lawful maximum penalties.

No excuse for treason!

The American people deserve transparency, accountability, and leaders who put the safety and interests of the people they serve first.

Foreign or domestic enemies must be brought to trial and prosecuted to the fullest extent of the law!

Back to Reality,

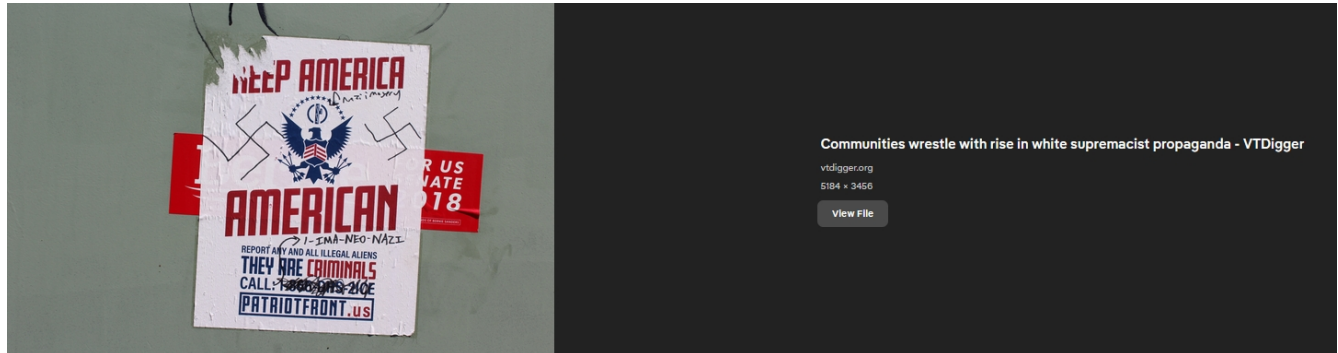

not their gross, violent, manipulative and twisted abnormal,
OUR AMERICAN NORMAL:

Hispanic foreigner makes the claim that “being American” means “white supremacy,” and writes Nazi symbolism on a pamphlet in a disgusting and severely misguided display against the American people. This is not acceptable. This is foreign

indoctrination, and it is WW3 propaganda against the American civilian population by a foreign activist.

Go home. *Not our home. Your real home.*

We know real Americans and we know you are far from it.

End the war on the American people. Silence the enemy and their evil, twisted propaganda. Convict all political criminals and send the enemy back to their real home: far away from America and the innocent American people. *We deserved better.*
