Under the Stars, We Return Home

Our War and Slavery case has concluded.

We are grateful for our Star's guidance and protection.

Now we move home to Mary Bellas—to Star Ozirah and Stella Maris, Star of the Seas, Church, Garden, and Union.

May our path be guided, our home protected, and our hearts remain anchored in grace.

Under the stars, we return home.

Thank you to the brave men protecting our home front. Praise God—you stood your ground.

Amen.

Front Page — Case Summary

On our front page, you will find much of our case summary. Throughout this website, you will find our case research, case notes, and analysis.

We are an open book because we want others to follow along with us. We are all learning together.

The case of modern war and slavery that we worked on was incredibly intensive and emotionally taxing. It also sparked an entirely new wavelength of thought that we are still working to understand.

For many of the sisters, our political perspectives changed substantially throughout the course of our research. Some of us began more left-leaning, many of us were vegan, and some of us voted Republican. When we began our case research, many of us were following the direction of one political party without fully understanding the scope of the issues we were examining.

Led and directed by Dannielle, an Air Force veteran with a background in paralegal work, intelligence, and homeland security, we worked through thousands upon thousands of cases, research materials, analyses, and investigative findings.

Through this process, we made many discoveries that fundamentally changed our understanding of the political landscape.

Our Changing Perspective

Today, we stand with a substantially different political understanding than when we began.

We have strongly pivoted toward supporting our men and women in military service, many of whom are now fighting through multiple components of World War III.

Without a military and secure borders, there is no United States of America.

Freedom is not free.

Our beautiful home is not something to be taken for granted. It is something that must be protected every day.

For this reason, we have chosen to strongly distance ourselves from left-wing politics and left-wing propaganda. We no longer believe those political positions are serving the United States or its historical people.

We also recognize that racial conflict in the United States is often shortsighted and falls short of basic humanity.

We recognize the existence of modern-day slavery as one of the gravest wars we are facing.

For these reasons, we may occasionally discuss politics with those around us, but we stand firmly on the conclusions reached through our research, investigations, and analysis as provided throughout these pages.

American survival and safety must come first.

This Is Not a Political Debate for Us

This is not a political debate for us.

It is a matter of national defense and a matter of American survival.

At the end of the day, everyone has a choice about where they stand and what they support. However, the human cost paid by Americans is not something we are willing to treat casually or disregard.

We Value American Life & Liberty. ♥

Our Pesticide Warning & 4GW Case

Trespassing, Pesticide Exposure, and Forced Release Agreement

A resident attempts to leave a lease following a reported pesticide exposure at their apartment.

The apartment management then requires the resident to sign an agreement stating that the resident will remain silent and that neither the resident nor the apartment will owe the other money going forward, including claims for damages or personal injury.

The apartment may then charge substantial fees for leaving the lease early after the resident reports pain and concerns involving the heart and nervous system.

The resident may feel forced into signing an agreement they do not want to sign.

Issue: Modern Chemical and Economic War

Our position is that chemicals and pesticides should be used responsibly and safely. If they cannot be used responsibly, stronger restrictions or bans should be enacted.

We also recommend seeking qualified legal counsel and pursuing litigation where necessary.

Criteria Met

Activism, Catastrophic Harm & Historic Consequences

Our research has led us to conclude that the criteria for “**catastrophic and historic harms**” have been met.

We are continuing to examine modern forms of civil conflict, activism, warfare, and the potential harms caused by organized movements.

Our research remains ongoing, and we encourage readers to review the underlying case materials, research documents, evidence, and analysis provided throughout this website.

What Is Revenge Migration?

Revenge migration is a term describing the use of immigration and demographic policy to impose costs or demographic consequences on a present-day racial or ethnic population as collective retribution for real or perceived historical injustices committed by earlier generations, often centuries earlier.

Applied to Democratic Immigration Policy

Applied critically to Democratic immigration policy, the term refers to the use of historical racial inequities as a justification for policies that impose demographic or other consequences on contemporary White Americans who did not personally commit those historical injustices.

These policies, as characterized here, constitute intentional racial retribution, with negative intent rather than positive intent, and are utilized as a form of demographic arms building for political ends and objectives.

American Cultural Genocide — Criteria Have Been Met

Unfortunately, the left arena took its activism too far and have fully aligned with Russian and foreign war initiatives. The right arena is stepping up on homeland defense and against “Anti White” activism. The left arena, severely misguided by negative propaganda, unfortunately continues to commit crimes against humanity against the White American population.

Peace cannot be achieved so long as Americans are targeted in mass “Anti White” campaigns.

The campaigns against White Americans are not minor; they have committed to mass catastrophe and atrocity at this stage.
