

War Against American Citizens by Foreign Actors and Enemies

BlamesovJF+ War, OVSky, Modern Cold War, War on Drugs

The thing about the World War II Holocaust is that it was successful, in part, because it operated in secrecy. Many of its actions were concealed, and its messaging was used to manipulate public perception.

This same concept of warfare is operating in the USA today, through hidden methods, subtle, "gentle," or soft influence, and "ends and means" can be observed in different areas of society, where war actions occur secretly and quietly, "just under the surface."

These war methods can be employed by both opponents and by individuals or groups who present themselves as allies.

The Modern War:

→ **Political Grid, Power and Control, Monetary, Property and Goods Acquisitions, Means and Ends, Human and Financial Cost**

→ **Inspires, Uses Propaganda, Agitates, Manipulates, Promotes, Deceives**

→ **Lures, Attacks, Warfares, and Enslaves**
