French Canadians have a unique history of forced foreign colonialism and forced assimilation, which ultimately led to slavery, war, and, sadly, genocide. Acadians lost half of their population, and for those who survived they were scattered in the United States and even places like the Caribbean. We lost contact. These events are part of what is called the "Grand Dérangement." This is how many of us arrived in America, we were forced here. Today, we are proudly American, but there is still much to heal and recover from, as many of us are still learning this history and are now a very small minority of the American population. President Trump is doing a great job of making sure this experience does not happen again, and this is a real worry for those who know our history fully. I am grateful for the actions of the president. This message made my day.

I would never interfere with Canadians speaking French! In fact, I have never even thought of doing such a stupid thing. This lie was made up by a weak and ineffective Prime Minister in an attempt to gain political support, which he has totally lost, from the people of Quebec. I love French Canadians!
