

The Spanish War 2026

Not Old Soul

American

Immigrants or family
of immigrants.

Evil, territorial,
raising “fire,” harming and cruel to the American people.

Me, me, me. A sense of
entitlement, grandiosity, and hateful attitudes towards American souls
~ is beyond what most Americans have experienced.

Foreign-built turf
wars, manipulations, lies, and psychological abuses against the
American people.

Another country,
spread throughout the United States. A completely different
wavelength and culture.

More, more, more.
Forget the American people; I am the one who hurts the most.

A terrible
partnership, a crazy partnership, like America’s beloved Selena and
her Yolanda Saldívar, a forced relationship, an abusive
relationship, a relationship that kills us when we are vulnerable, loving,
and compassionate.

Yet it isn’t just
one evil, jealous, envious friendship; it’s a nation building
within American borders, lighting us on fire along the way, a Spanish
hellscape for all Americans to do their best to navigate.

Foreign flags,
cartels, gangs, mafia, destroying the United States from within.
Hispanic Democratic bullies come running along: more power, power,
power — me, me, me, my people! My people! I don’t know them, but
they are my people! Latino, Hispanic, I’m Indigenous American from
the Caribbean, more welcome than you! American, who are you!
Stranger! European. Go home. Go back to where you came from!

An entitlement so
severe, a gross need for power so severe, that over an American,
but for a human enslaver and child predator, they would cheer. My people,
my people, my territory, this is my year! Let's get something
clear!

There will always
remain a difference between a real American and an evil Spanish colonial War.

Democrats (Derangements) once again
have chosen evil, chosen to harm the American people, support slavery,
and support war. This time, it spoke many languages, but its
dominant voice was *Spanish*.
