

Language Wars

The Non-American Jokes That Don't Land

Bizarre rites of humiliation, shame, defamation, smear, and bullying → jokes that do not land.

Used as a skilled tactic of “dehumanization” and degradation.

Non-American in character.

Socially immature.

A form of **cultural disintegration** in which Americans are the targets.

Our position: “**Weaponized communication is unacceptable.**”

We believe firmly in personal peace, and that individuals who cause this level of harm should be removed from circles of trust.

We establish language barriers.

US stands with the American people.
